# I. Letter to Shareholders

#### Dear Shareholders,

Thank you all for the support to Addcn Technology in the previous year and for being at the 2022 annual general shareholders' meeting. You are welcome to give your valuable advice to us.

#### 1. Business results in 2021:

## (1) Results of the business plan:

In 2021, the consolidated operating revenue of the Company was NT\$1,684,586 thousand and the operating profit reached NT\$707,973 thousand while the net profit after tax in current period and EPS was NT\$604,536 thousand and NT\$12.13, respectively. We have an EPS of more than NT\$10 every year.

In the middle of 2021, the pandemic did not end, but unprecedentedly caused Taiwan to raise its alert level to 3, resulting in a huge impact on the public and corporates. By turning this crisis into an opportunity in such a harsh environment, our management team not only ensured the continuous expansion of our websites, but also achieved an outstanding performance in the operation of new websites. The contents and pricing strategies for "591 Property Trading" have been optimized on a continuous basis, and we also started to offer user-friendly actual price registration services to gain competitive advantages for the website. Thank to the contents about new cars on "8891 Car Trading" and the stable growth in the used car market in 2021, a ton of sales leads were generated, which allowed the website to become the largest vertical car trading platform. In terms of human resource services, in addition to a successful transformation to "518 Employment" focusing on talents in service industries, "Tasker Outsourcing", "Marry Wedding Service", and "Chickpt" (for part-time jobs) have taken a leading position and progressively moved on to self-sufficiency. Although the market operation was very difficult due to the impact of the significant changes in the internal and external situation of Hong Kong, the overall operation of "Hong Kong 591" and "Hong Kong 8591" still developed steadily in such environment.

#### (2) Revenue and profitability analysis:

For the consolidated revenue, gross profit, operating profit, net profit after tax in current period and the EPS after tax in 2021, please refer to the following table:

Unit: NT\$ thousands

Year Item	2021	2020
Operating revenue	1,684,586	1,539,775
Gross profit	1,234,749	1,195,047
Operating profit	707,973	721,558
Net profit after tax in current period	604,536	622,171
EPS after tax (NT\$)	12.13	12.44

#### (3) Research and development:

The Company has more than ten million of members, and therefore the consumer behavior data is an important asset for our future websites. By constant enriching of the group's services and refining of the data algorithm, the Company increases the benefit generated from the data resources. Besides, we constantly strive to optimize the mobile terminal.

#### 2. Summary of 2022 Business Plan:

In spite of a lack of clear information about the situation and impact of the pandemic on other countries, the management team keeps making progress. The Company optimizes user experience based on the business results last year to create a complete ecological chain. For the operation, we will offer a wider range of services to create a clearer differentiation from competitors in 2022, and improve the user experience of the mobile version of the existing websites and provide a variety of flexible payment methods to demonstrate the value of the websites. Regarding human resource services, "518 Employment", "Chickpt", "Tasker Outsourcing" and "Marry Wedding Service" are distinguished from other websites and integrated into a complete ecological chain in the job market. With the aim of making a breakthrough in foreign markets, we center our focus around boosting the influence of "Hong Kong 591" in the market and strengthening our business in the game market once a fee is required for using services on "Hong Kong 8591" in the hope to achieve the goal of self-sufficiency. We expect the arrangement and promotion stated above will significantly benefit the operation of the Company.

3. Impacts of the external competitive environment, regulatory environment, and macroeconomic business environment:

Taiwan's booming network market is sought-after among domestic and overseas companies, and the impact of the international environment increases day by day. However, the progressively opening up of the overall regulations has a positive effect on the network industry. The Company upholds an innovative attitude to face the increasingly harsh challenges and continues to develop multiple convenient services to maintain the growing momentum of the Company. The management team of the Company has rich experience in practice and pays adequate attention to grasp the competitive, regulatory and the macroeconomic business environments in the market.

## 4. Future development strategies:

The network technology develops and changes every day. Thus, the Company will constantly invest in the research and development and improve the data algorithm and provide better user experience to satisfy the consumer demand via our technology. The market in Taiwan is the foundation of the Company, and therefore we will strengthen the business in Hong Kong based on our experience to explore more markets and build a growing business model with stability for the Company.

Thank you all for your participation. We also appreciate the hard work of our employees. In the future, all the employees of the Company will strive to boost the performance to create higher profits and value for all the shareholders and adopt the sustainable operation as the final objective.

We wish each of you good health and all the best.

Chairman: Shih-Fang Liao

General Manager: Tsung-Hsien Wu

Chief Accountant: Chiao-Ni Chang

#### Note:

- (1) Not an employee of the company or an affiliate.
- (2) Not a director or supervisor of the Company or any of its affiliates (the same does not apply, however, in cases where the person is a concurrent independent director of the Company, its parent company, any subsidiary, or a subsidiary that belongs to the same parent company, as appointed in accordance with the Act or with the laws of the local country).
- (3) Not a natural-person shareholder who holds shares, together with those held by the person and his/her spouse, minors, or held by the person under others' names, in an aggregate amount of 1% or more of the total number of issued shares of the Company or ranking in the top 10 in holdings.
- (4) Not a manager listed in (1) or a spouse, relative within the second degree of kinship, or direct blood relative within the third degree of kinship of a person listed in (2) and (3).
- (5) Not a director, supervisor, or employee that has 5% or higher ownership interest in the company, being the top-5 corporate shareholders or the institutional shareholders who designate representative as the corporate director or supervisor in accordance with Paragraph 1 or 2, Article 27 of the Company Act. (the same does not apply, however, in cases where the person is an independent director of the Company, its parent company, any subsidiary, or subsidiary of the same parent company, as appointed in accordance with the Act or with the laws of the country of the parent or subsidiary.)
- (6) Not a director, supervisor, or employee of another Company in which the number of directors or more than half of the voting shares is under the control of the same person. (the same does not apply, however, in cases where the person is an independent director of the Company, its parent company, any subsidiary, or subsidiary of the same parent company, as appointed in accordance with the Act or with the laws of the country of the parent or subsidiary.)
- (7) Not a director, supervisor or employee of other Company or institution in which the chairman, president, or personnel with equivalent position are the same person or have spouse relationship. (the same does not apply, however, in cases where the person is an independent director of the Company, its parent company, any subsidiary, or subsidiary of the same parent company, as appointed in accordance with the Act or with the laws of the country of the parent or subsidiary.)
- (8) Not a director, supervisor, manager, or shareholder holding more than 5% of the outstanding shares of a specific company or institution in a business or financial relationship with the Company. (the same does not apply, however, in cases where the specific company or institution holds 20% or more and no more than 50% of the total number of issued shares of the company and the person is an independent director of the Company, its parent company, any subsidiary, or subsidiary of the same parent company, as appointed in accordance with the Act or with the laws of the country of the parent or subsidiary.)
- (9) Not a professional who provides audits or commercial, legal, financial, or accounting services accumulating more than NT\$ 500,000 of remuneration obtained in recent two years to the company or its affiliates, nor is an owner, partner, director, supervisor, or manager, or the spouse of any of the above, of a sole proprietorship, partnership, company, or organization that provides such services to the company or its affiliates. However, this shall not apply to the remuneration committee members who exercise their powers in accordance with Article 7 of the Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Taiwan Stock Exchange or the Taipei Exchange, or the members of the remuneration committee, review committee for public acquisitions or special committee for mergers executing their duties in accordance with the Securities and Exchange Act or Business Mergers and Acquisitions Act.
- (10) Is not the spouse or relative within the second degree of kinship of another director.
- (11) Is not a person of the conditions specified in any of the sub-paragraphs of Article 30 of the Company Act.
- (12) Has not been elected as a government unit, institution, or their representative as prescribed in Article 27 of the Company Act.

#### (4) Diversification of the Board of Directors:

## (A) Policies on diversity:

According to Article 20 of the "Corporate Governance Best Practice Principles" of the Company, the composition of the Board of Directors shall be determined by taking diversity into consideration. Besides the directors holding the position as the Company's managers concurrently shall not exceed one-third of the total number of directors, it is advisable that an appropriate policy on diversity based on the company's business operations, operating dynamics, and development needs be formulated and include, without being limited to, the following two general standards:

- A. Basic requirements and values: Gender, age, nationality, and culture.
- B. Professional knowledge and skills: A professional background (e.g., law, accounting, industry, finance, marketing, technology), professional skills, and industry experience.

All members of the board shall have the knowledge, skills, and experience necessary to perform their duties. To achieve the ideal goal of corporate governance, the Board of Directors shall possess the following abilities:

- A. Ability to make operational judgments.
- B. Ability to perform accounting and financial analysis.
- C. Ability to conduct management administration.
- D. Ability to conduct crisis management.
- E. Knowledge of the industry.
- F. An international market perspective.
- G. Ability to lead.
- H. Ability to make policy decisions.
- (B) Management goal and implementation:

Diversification is a focus in the formation of the Board of Directors. It is comprised of elites from the industrial and academic circles. There are currently 9 Board members and 3 of them are independent director, occupying 30% of the total directors. Among the 8 individual directors and supervisor, 3 are doctors and 2 are masters. The ratio of directors and supervisors with doctor/master degree reaches 63%. There are 4 females directors occupying a percentage of 50%; the goal of the Company in diversification is 30% of females directors. The management goal was achieved after reelection of the Board members this time.

#### (C) Independence of the Board of Directors:

Independent of the Board of Directors: The 6th Board of Directors of the Company is comprised of 9 directors with extensive experience in business administration or academic specialties. There are 8 natural-person directors occupying 89% of the total directors. No government agency or any single corporate organization or its subsidiary accounts for one third of the Company's Board members. There are 3 independent directors occupying 30% of the total directors. All of them meet the independence requirements referred to in the "Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies". No direct has a relation of spouse or relative within 2nd degree of kinship with any other directors or acts in violation of Article 26-3, Paragraph 3 and 4 of Securities and Exchange Act.

<sup>1.</sup>Please describe the policy, system, standard, and structure of remuneration payment for independent directors, and the association with the remuneration payment amount by factors such as function of the director, risk, and involvement duration:

Note 1: Assumed office on Nov 04, 2021

Note 2: Assumed office on Aug 26, 2021

According to Article 17 of the Articles of Incorporation, the board of directors is authorized to determine the level of remuneration for the directors and supervisors based on individual participation and contribution to the Company's operations, and in reference to industry peers. The performance evaluation of Board of Directors and individual direction is conducted every year according to the "Regulations Governing the Board of Directors' Performance Evaluation." The evaluation items include the involvement in the operation of the Company, the quality of the Board of Directors' decision making, management of internal relationship and communication, and internal control. The performance evaluation results will be the reference for the determination of individual remuneration.

<sup>2.</sup>In addition to what are disclosed in the above table, the remuneration of the Company's directors for providing services (such as assuming a non-employee consulting post of the Company/all companies in the consolidated financial statements / reinvested business ) for the companies included in the financial statement in most recent years: None.

General Manager and Deputy General Manager	41,369	41,369	6.59%	6.65%	50,106	50,106	8.18%	8.04%	

- (2) The policies, standards, and portfolios for the payment of remuneration, the procedures for determining remuneration, and the correlation with business performance:
  - (A) The policies of remuneration payment to directors, supervisors and managerial

- officers are specified in the Articles of Corporation. According to Article 20 of the Articles, annual profits concluded by the Company shall be subject to employees' remuneration of no less than 1% and the directors and supervisors' remuneration may be provided up to 3% of the annual profits. The determination of remuneration is based on certain limit of the annual earnings ratio, therefore the remuneration has high association with the business performance of the Company.
- (B) The board of directors is authorized to determine the level of remuneration and travel allowance for the directors and supervisors based on individual participation and contribution to the Company's operations, and in reference to industry peers. The performance evaluation of Board of Directors and individual direction is conducted every year according to the "Regulations Governing the Board of Directors' Performance Evaluation." The evaluation items include the participation in the operation of the Company, the quality of the Board of Directors' decision making, management of internal relationship and communication, and internal control. The performance evaluation results will be the reference for the determination of individual remuneration.
- (C) The remuneration of the President and Vice President (level) is calculated as salary and employee's cash pay pursuant to the "Managerial Officer Remuneration Regulations." The performance of the managerial officer is evaluated every year according to the performance evaluation guidelines in the "Employee Handbook." The evaluation items include the work performance, leading ability and skill, and the evaluation is conducted in a comprehensive manner. The remuneration committee regularly evaluates the policy, system, standard and structure with respect to the performance and remuneration of the managerial officer, reports to the Board of Directors, and implements accordingly after the Board of Directors gives its approval. The remuneration committee reviews the remuneration system of directors and managerial officers, whenever necessary, with reference to the actual operational status, relevant laws and regulations, and the risk in the future.
- (D) Future risk: In order to prevent risks, the Company has insured directors, supervisors and managers liability insurance.

#### 4. Implementation of Corporate Governance:

#### 4.1 Board of Directors:

A total of 7 (A, 3 times in the 5<sup>th</sup>; 4 times in the 6<sup>th</sup>) meetings of the Board of Directors were held in the previous period. The attendance of director and supervisor were as follows:

Title	Name	Actual no. of meetings attended (B)	No. of meetings with entrusted attendance	Actual attendance rate (%) [B/A]	Remarks

Supervisor	Rui Qi investment Ltd	3	0	100%	Resigned on Aug 26, 2021

#### Other matters to be recorded:

- 1. The Company does not have any of the items listed in Article 14-3 of the Securities and Exchange Act or other matters that have been rejected or reserved by independent directors and have been discussed by the Board of Directors with a record or written statement.
- 2. Execution of directors' avoidance of interest proposals: Directors shall evade participation in discussions and voting on their remuneration related proposals.
- 3. Implementation status of Board of Directors evaluation:

			ı	T
Cycle	Period	Scope	Method	Description
Once a year	110.01.01- 110.12.31	Performance evaluation of the board	Self-eval uation	Participation in the operation of the Company, the quality of the Board of Directors' decision making, the organization and structure of the Board of Directors, election and continuing education of the directors, and internal control
Once a year	110.01.01- 110.12.31	Performance evaluation of individual directors	Self-eval uation	Alignment of the goals and mission of the Company, awareness of the duties of a director, participation in the operation of the Company, management of internal relationship and communication; the director's professionalism and continuing education, and internal control.
Once a year	110.01.01- 110.12.31	Performance evaluation of the Audit Committe	Self-eval uation	Participation in the operation of the Company, awareness of the duties of the functional committee, the quality of the functional committee's decision making, organization of the functional committee and election of its members, and internal control.
Once a year	110.01.01- 110.12.31	Performance evaluation of the Compensation Committee	Self-eval uation	Participation in the operation of the Company, awareness of the duties of the functional committee, the quality of the functional committee's decision making, organization of the functional committee and election of its members, and internal control.
Once three years	110.02.01- 111.01.31	Performance evaluation of the board	External professio nal-evalu ation	The composition of the board of directors, the guidance of the board of directors, the authorization of the board of directors, the supervision of the board of directors, the communication of the board of directors, internal control and risk management, the self-discipline of the board of directors, other such as board of directors meetings, support systems, etc.

- 4. The goals of enhancing the Board of Directors' function (e.g. Establishment of an audit committee and improvement of the information transparency) in the current or most recent year and the implementation status.
  - (1) Establishment of Audit Committee: The Company established the Audit Committee on August 26, 2021.
  - (2) The Audit Committee and Remuneration Committee are formed by all the independent directors of the Company. They have the responsibility of supervision to enhance the function of the Board of Directors. The chairpersons of the committees report regularly to the Board of Directors regarding their operations
  - (3) Evaluation of Board of Directors: The Board of Directors adopted the "Regulations Governing the Board of Directors' Performance Evaluation" and the "Process the Board of Directors" in 2019. The self-evaluation of the Board's performance is conducted every year. Taiwan Corporate Governance Association was commissioned as an

- external institution to evaluate the performance of the Board of Directors this year. The implementation the result of the evaluation were reported to the Board of Directors and disclosed on the website of the Company.
- (4) The Company implements diversification of the Board of Directors on an ongoing basis to enhance its structure. Two females directors, including one in dependent director, are elected for the 6th Board of Directors to achieve the goal of the diversification.
- (5) Implementation of corporate governance and improvement of information transparency: The Board of Directors operates in accordance with the Rules of Procedure for Shareholder Meetings and convenes the Board of Directors' meeting of the Company accordingly. The implementation status is excellent.

## 4.2 Audit Committee or Attendance of Supervisors at Board Meetings:

#### (1) Audit Committee:

- (A) The Audit Committee of the Company is composed of three members.
- (B) It was established on August 26, 2021 and held 2 meetings in the most recent year(A). The attendance of the independent directors to the meeting is shown below:

Title	Name	Actual no. of meetings attended (B)	No. of meetings with entrusted attendance	Actual attendance rate (%) [B/A]	Remarks
Convener/ Independent Director	Lien, Chi-Jui	2	0	100%	Reelected on Aug 26, 2021
Independent Director	Chen, Fu-Mei	2	0	100%	Reelected on Aug 26, 2021
Independent Director	Chen, Su-Ting	2	0	100%	Assumed office on Aug 26, 2021

#### Other matters to be recorded:

- 1. Where any of the following circumstances occur to the operation of the Audit Committee, the date, term and proposal of the Audit Committee meeting as well as the dissent, reservation or major suggestion of any independent director, the Audit Committee resolution, and how the Company manage the Committee's opinions shall be described:
  - (1) The matters referred to in Article 14-5 of the Securities and Exchange Act.
  - (2) Other than the those described above, any resolutions unapproved by the Audit Committee but passed by more than two-thirds of directors.
  - : None. Refer to the next page for the information on the Audit Committee meeting.
- 2. Where the implementation status of recusal bearing on the interest of an independent director is involved, the name of the independent director, proposal, reasons for the recusal, and participation in the voting shall be described: None.
- 3. Communication between independent directors and internal chief audit/CPAs (major matters, methods and results of communication on the Company's financial and business conditions, etc. should be included):
  - (1) Communication of independent directors and supervisors with internal chief auditor
    - A. Regular: Submit the completed "audit report" to the independent directors and supervisors for review via email every month. If there are any questions or instructions, ask the chief auditor or communicate the instructions to him/her for implementation via email or phone. After the Board of Directors holds the quarterly meeting, the independent directors and supervisors shall hold a separate meeting with the internal chief auditor and the "internal audit implementation status" of the previous quarter shall be reported to the meeting. The contents of the submission include the implementation status of the Company's audit matters, findings during the audit, and implementation of improvements for any nonconformities; report on the planned methods for inspection of the items in the current quarter.
    - B. Irregular: Routine separate communication with independent directors and supervisors for improving the Company's audit value and enhancing the operating efficiency and achievement is conducted by phone, via email, or by convening meetings. Independent directors and supervisors are informed of any major violations, if any, according to laws and regulations. There are multiple and smooth communication channels between the Company's chief auditor and each independent director and supervisor.
  - (2) Communication of independent directors and supervisors with CPAs
    - As KPMG Taiwan's answers to our question indicate, communication of the independent directors and supervisors with CPAs is conducted mainly through the annual audit meeting and annual audit completion meeting or by conference call. The separate communication with the independent directors and supervisors mainly focuses on accounting and financial report issues.

(3) Summary with respect to the communication of the independent directors and supervisors with the internal chief auditor in most recent year

Date	Communication Focus	Result
03.18.2021 Communication meeting with independent directors and supervisors	2020 Q4 audit plan implementation status 2021 Q1 internal audit plan	No objection
05.13.2021 Communication meeting with independent directors and supervisors	2021 Q1 audit plan implementation status 2021 Q2 internal audit plan	No objection
08.12.2021 Communication meeting with independent directors and supervisors	2021 Q2 audit plan implementation status 2021 Q3 internal audit plan	No objection
11.11.2021 Communication meeting with independent directors	2021 Q3 audit plan implementation status 2021 Q4 internal audit plan	No objection

# (C) Audit Committee's annual operation focus and important resolution in the most recent year:

Date	Proposal	Result of resolution	The Company's response to Audit Committee's opinions
08.26.2021	Proposal for election of the convener and chairperson for the Audit Committee meeting	All the committee members present at the meeting discusses and unanimously elected Lien, Chi-Jui, a committee member, as the convener and chairperson for the Audit Committee of this term	Not applicable
11.11.2021		Approved by all present committee members unanimously	Not applicable

## (2) Attendance of Supervisors at Board Meetings:

The Audit Committee was established on Aug. 26, 2021. And the Audit Committee replaced the supervisory authority. A total of 3 meetings of the 5<sup>th</sup> Board of Directors were held in the previous period. The attendance of supervisors was as follows:

Title	Name	Actual no. of meetings attended (B)	Actual attendance rate (%) (B/A)	Remark
Supervisor	Huang, Mu-Chuan	3	100%	Resigned on Aug 26, 2021
Supervisor	Chen, Chin-Han	3	100%	Resigned on Aug 26, 2021
Supervisor	Rui Qi investment Ltd	3	100%	Resigned on Aug 26, 2021

#### Other matters to be recorded:

- 1. Composition and responsibilities of Supervisors:
  - (1) Communication of supervisors with employees and shareholders (e.g. communication channels and methods): The Company has designated personnel who can contact supervisors whenever necessary to establish communication channels with the Company's employees and shareholders. Supervisors are invited to the shareholders' meeting every year and they can communicate with the shareholders face to face at the meeting.
  - (2) Communication of supervisors with the internal chief auditor and CPA. (e.g. the matters, methods and results of communication with regard to the financial and business statuses of the Company): Refer to the communication of the independent directors and supervisors with the internal chief auditor and CPAs stated in the above tabl.
- 2. If Supervisors state their opinions in a board meeting, please indicate the date of the board meeting, the session number, the contents of the motion, the results of the board resolution and the Company's handling of the Supervisors' opinions: The Company did not encounter this situation.

4.3 Corporate Governance Implementation Status and Deviations from "the Corporate Governance Best-Practice Principles for TWSE/TPEx Listed Companies":

			Status (Note 1)	Deviations from "Corporate

			committee for assessment of information management which is responsible to promote, coordinate, and supervise the matters relating to the protection of information of the Company in 2013. Meanwhile, we also engaged the third-party certification unit to regularly assess the information security of the Company. The Company passed the SGS international certification and BS 10012 PIMS (Personal Information Management System) in 2017. We maintain the information security regularly every year and continue to pass the certification to preserve its effectiveness to ensure the highest-level protection of the clients' information under multi-layers information security controls.	
3. Environment issue (1) Has the Company established environmental management policies suitable for the Company's industrial characteristics?	✓		The Company has established the applicable system subject to the industry characteristics and complied with relevant environmental protection laws without any violation against the environmental protection laws. In addition, the Company plans to adopt ISO 14046-1 for greenhouse gas inventory to understand more about the greenhouse gas generated during the operation, subsequent management, and reduction of the emissions, hoping to control the GHG emissions effectively and reduce the impact of the climate change on the environment and ecology.	No major difference
(2) Is the Company dedicated to enhancing energy efficiency and using recycled materials with low impact on the environment?	✓		The Company has executed the classification of waste and promoted paperless process to increase the reuse efficiency of resources.	No major difference

			Status	Deviations from "Corporate
Scope of Assessment	Yes	No	Summary	Governance Best Practice Principles for TWSE/TPEX Listed Companies" and reasons
(3) Does the Company assess the present and future potential risk and opportunities of climate change in relation to the Company and adopt corresponding countermeasures?	<b>√</b>		The online transaction platform is the main business of the Company and is less affected by the climate change. Nevertheless, the Company pays attention to the potential risks and opportunities on an ongoing basis.	No major difference
(4) Does the Company gather statistics of the greenhouse gas emission, water consumption and the gross weight of the waste in the past 2 years and establish policies for reduction of greenhouse gas emission and water consumption or other waste management?			The Company runs the transaction platform online without engaging in any product manufacture. Therefore, there is no process causing environmental pollution nor discharge of waste water or air pollution.  The Company currently takes the following management policies:  1. Use department exclusive folders to deliver internal documents, promote paperless processing and reuse of papers to reduce the usage of paper resources.  2. Use energy-saving tubes inside the Company, regularly promote living habits to save water and electricity and reduce the impact on the environment in compliance with the government policies.  3. Outsource daily cleaning to professional cleaning company and set recycling bin for resource classification.  4. Execute regular environment sterilization and cleaning of the fan-coil unit to maintain the clean environment.  5. Regularly perform drinking water quality inspection inside the Company.	No major difference
4. Social issue (1) Does the Company develop management policies and procedures in accordance with relevant regulations	✓		The Company adopts the "Adden Technology Co., Ltd. Work Rules", "Employee Handbook", and related management policies and procedures pursuant to the "Labor Standards Act", "Regulations of Leave-Taking of	No major difference

# 1.6 Dividend Policy and Implementation Status:

# (1) Dividend Policy:

According to the Company's Articles of Incorporation, if the Company has a profit at the year's final accounting, it shall first pay profit-seeking enterprise income tax and make up any losses from past years, and then make contribution of 10% of the balance to the statutory reserve, unless the statutory reserve reaches the amount of the Company paid-in capital. Special reserves may be set aside depending on the Company's operational needs pursuant to the laws and regulations. The remaining profits deducting the dividend distribution amount with the undistributed earnings at beginning of period (if any) shall be proposed for a distribution by the board of directors. The proposal shall then be submitted to the shareholders meeting for a resolution for the distribution.

The Company defined the allocation of dividend based on operation status, demands for funds, capital expenses and budgets, changes to internal and external environment, and the shareholder's equity. If no special circumstances must be considered, the allocation proportion should be more than 50% of distributable earnings of the current year. The dividend will be distributed in the form of stock dividends or cash dividends based on the Company's demand for funds in the future and the level of dilution of the capital stock. In principle the cash dividends shall not be lower than 10% of the total amount of the dividends. Only that the dividend type and percentage to be distributed are based on actual profits of the year and the status of the funds. The final result is subject to the resolution of the shareholders meeting.

# (2)Proposed Distribution of Dividend:

For shareholders' bonuses, a resolution was made by the board of directors on March 23, 2022, to attribute NT\$574,003,275 as cash dividend at NT\$11.3 per share. The cash dividends release date is May 17, 2022.

- 1.7 Impact of the Proposed Bonus Shares on the Company's Operating Performance and Earnings per Share by the Shareholders' Meeting: None.
- 1.8 Bonuses of Employees, Directors and Supervisors:
  - (1) The percentage or scope of the bonuses of Employees, Directors and Supervisors stipulated in the Articles of Incorporation:

If there is a profit for the year, the Company shall allocate not less than 1% of it for the employee bonus and not more than 3% for the directors and supervisors' bonus. However, if there is still a cumulative loss, an amount to make up for the loss should be retained in advance.

Qualification requirements of employees, including the employees of subsidiaries meeting certain specific requirements, entitled to receive shares or cash in accordance with the preceding provisions.

(2) The basis for the estimation of the amount of bonus of employees, directors and supervisors in the current period, and the accounting treatment if there is a difference between the actual employee bonus paid in shares or cash and the estimated amount:

The amount of remuneration for employees, directors and supervisors in the current period is estimated appropriately in accordance with the Articles of Incorporation and past

experience of the Company before deducting the remuneration for employees, directors and supervisors from the income from continuing operations before income tax of the current year.

- (3)Bonus distribution as passed by the board meeting:
  - (A) Recommended Distribution of Employee Bonus and Directors' and Supervisors' Remuneration:

Unit: NT\$ thousand

Item \ Status	Remune	ration of en	nployees	Remuneration of directors and
item \ Status	Cash	Stock	Total	supervisors
Annual recognized amount of estimated expenses (A)	48,670	0	48, 670	7,020
Proposed allocation of the Board of Directors (B)	48,670	0	48, 670	7,020
Discrepancy (B)-(A)	0	0	0	0

- (B) If there is any discrepancy between such an amount and the estimated figure for the fiscal year these expenses are recognized, the discrepancy, reasons therefor, and how it is treated shall be disclosed.: There is no discrepancy between such an amount and the estimated figure for the fiscal year these expenses are recognized, so not applicable •
- (C) Employee bonus paid in shares as a percentage of the total amount of the current net profit after tax and the total employee bonus of the parent company only or each of companies' financial statements: The board of directors pays in cash through the allocation of remuneration, so it is not applicable.
- (4)If there is a difference between the actual distribution of bonus of employees, directors and supervisors (including the number of shares, the amount and the share price) in the previous year and the provision for the bonus, please describe the difference, the reason and the accounting treatment:

Unit: NT\$ thousand

#### (4) New products development:

With the growing number of users and transactions/publications, each of platforms has different functional requirements in terms of cash flow, user experience and information needs. Therefore, new services development planned for future will be developed on existing infrastructure to provide better services for users of various platforms.

#### 1.2 Industry Overview:

Please refer to page 54 of the Chinese annual report for the current situation and development

of the industry, the relationship between the upstream and downstream industries, the development trends of products and the competition situation.

### 1.3 Research and Development:

(1)Please refer to page 54 of the Chinese annual report for the technical level of the business, research and development personnel and their education(experience), and the successful technology or products developed in the last five years.

# (2)R&D Expenses in the past five years:

Unit: NT\$ thousand; %

Year Item	2017	2018	2019	2020	2021
R&D Expense	64,482	54,862	45,654	51,785	66,902
Net revenue income	1,371,193	1,478,744	1,468,031	1,539,775	1,684,586
R&D expense to net revenue ratio	4.70%	3.71%	3.11%	3.36%	3.97%

# 1.4 Long-term and Short-term Development:

### (1)Short -term Development:

- (A) The Company implements payment plans for new platforms and continues to increase brand awareness to expand the user base and number of paid users and generate profits on the new platforms.
- (B) The Company continues to develop diversified contents such as industry information and video contents to attract users with contents, increase user loyalty, and increase the traffic of each platform.
- (C) The Company actively introduces more new services to mature platforms and uses advantages such as AI technology and lead in mobile applications to provide comprehensive information services and explore diverse forms of platform development.

# (2)Long-term Development:

- (A) The Company continues to develop new services and new businesses by leveraging the Company's business advantages and core competencies accumulated on online platforms. We integrate the developments with existing businesses to expand the ecosystem of the Group's services.
- (B) The Company has more than 10 million members, and their consumer behavior data will become important assets for the future development of the platform. We will improve the algorithms for data processing and increase the benefits of data resources in order to provide a better user experience and satisfy consumer demand through technologies.
- (C) The Taiwanese market is the foundation of the Company. In the future, we will use our experience in Taiwan to develop the Hong Kong market and other overseas markets. By focusing on technology, the Company will expand into more markets and create a business model with stable growth for the Company.

#### 2. Market and Sales Overview:

### 2.1 Market Analysis:

# (1)Service Region:

The Company is engaged in online trading platforms. In addition to serve domestic consumers, we have established 591 property trading platforms and 8591 virtual treasure trading platforms in Hong Kong to provide more online trading services for Hong Kong users.

# (2) Market Share (%) of Major Product Categories in the Last Two Years:

Unit: billion;%

Item	2020	2021
ADDcn Technology revenue	1.54	1.69
Information services revenue	98.10	112.00
ADDcn Technology market share	1.57%	1.50%

Date source: Collated from Department of Statistics of Ministry of Economic Affairs and MOPS.

The Company focuses on the online transaction platform service in the information service industry. According to Department of Statistics of the Ministry of Economic Affairs, the industry's sales in 2020 and 2021 were about NT\$ 98.10 billion and NT\$ 112.00 billion, respectively. In 2020 and 2021, the consolidated revenue of the Company was NT\$ 1.54 billion and NT\$ 1.69 billion with a market share of 1.57%, and 1.50%.

# (3) Market Analysis of Major Product Categories:

Taiwan's game industry is classified into PC and mobile games. Currently, the market has been matured, and there is a fierce competition between manufacturers. Therefore, differentiation must be the important market strategy of the games that will be introduced to the market. Mobile games industry has grown since 2014. According to the estimation of Newzoo, the global game market in 2021 was about USD 175.8 billion, and mobile games have accounted for 52% of this figure. As more and more people entered the mobile game industry, the game transaction platform must also keep up with the trend of market transfer.

Housing is an inelastic demand of the general public. In the most recent five years, the average transaction volume of houses was increased from 270 thousand cases to 350 thousand cases, showing a strong demand in the real estate market. About half of the population in Taiwan has the need to rent a house and, thus, the rental housing market is quite active. With the rapid growth of the Internet usage rate in recent years, the users on both supply and demand sides of housing have changed their habit from off-line to on-line application. The postings on the Internet are not only effective but also have a wider coverage. Everyone can browse houses in any region of Taiwan via the Internet. The supply of the real-estate platform will grow for potential demand.

The rapid development of the automobile applications and upgrading safety equipment of new vehicles in recent years have driven the growth of the new car transaction market. The transaction volume of new cars in the recent five years remained at a high level between 430 thousand and 450 thousand cars. The second-hand car market was affected by the prosperous new car market. The transaction volume in 2016 dropped to a level less than 800 thousand cars and a level between 740 thousand and 780 thousand cars was maintained during the period from 2016 to 2020. The transaction volume in 2021 recovered to 800 thousand cars with a growth rate of 2.8% YoY. In addition to the second-hand care service,

8891 Car Trading developed the new car market in recent years and provide various new car information and video/audio content to attract customers and develop itself to the No.1 brand on the market.

The online human resources market has been operated for 20 years and almost become matured. Over 80% of the candidates use online platform to send resumes, which has become the necessary approach to entering the job market. The population of the smart phones and mobile networking systems in recent years pushes the competition platform to the mobile device market. The 518 Human Resource has overcome many challenges. With the support of the AI technology and the advantages at the mobile end. It creates 518 Human Resource with the talents in the service sector as the core and provides companies with total solutions of recruitment by working tightly with Chickpt (Part-Time Human Resource) and Tasker Outsourcing.

#### (4) Competitive niches:

(A) The management team has rich experience.:

The company's operating team has more than 10 years of experience in network platform development and operation, with a complete technical team and flexible marketing team. The company's management team is sensitive to the market and is good at differentiating marketing and product design with creativity. Its vertical website has a place in Taiwan's Internet industry.

(B) Website has high brand awareness/huge membership advantages:

The total number of members of ADDcn websites is more than 10 million, which has laid the competitive advantage of the Company described as follows:

- ①8591(Virtual Treasure Trading): Accumulating the advantages of the vast number of players database to form the competitive advantage of the Company. In addition, we strengthened comprehensive website security system, such as membership authentication, membership login IP judgment system, to ensure the equity of members and transaction security.
- ②591(Property Trading): The platform uses an extensive database of property owners, tenants, and buyers to create competitive advantages for the Company. It also expanded the scope of services to real estate transactions such as new housing projects, actual price registration, and financial services for mortgages to provide industry-leading service contents and superior user experience.
- ③8891(Cars Trading): A second-hand car trading website must have high credibility. The Company therefore advocates the integrity of car sales and website operation convenience, and we also provide professional car reviews for new cars, unboxing videos, reliable tests and reviews, and other services to strengthen the Company's competitive advantage.
- ⊕518 (Human Resource): With a large database of small and medium-sized enterprise owners and job applicants, the platform leverages mobile R&D technologies to provide corporate customers in the services industry with an optimized mobile device user experience. We created the first "Bear Rapid CV Delivery" function to optimize the complicated procedures for providing information that were required for job seekers in the past. We also use AI technologies to increase the matchmaking accuracy and efficiency for service professionals.

(5) Favorable and Unfavorable Factors in the Long Term:

#### [Favorable Factors]

- (A) We accumulated over 10 million members of the brand loyalty by unique multi-brand website business model, and continue to invest in the development of new livelihood website, create more new trading markets, in order to enhance the sustainable development of matchmaking transaction markets.
- (B) The Internet market in Southeast Asia's is growing fast and local Internet services are in course of starting. There is a lack of professional platforms such as virtual treasure trading, rental and automobile website at present, which is an opportunity for us to layout Southeast Asia.
- (C) With the rapid growth of mobile Internet penetration, we have continuously launched mobile version web pages and APPs on various platforms in recent years. With the convenience of any time mobile Internet access, we can further improve the traffic and customer stickiness of the websites.
- (D) Cooperating with banks to provide a variety of cash flow services, providing consumers and website operators with an excellent and perfect payment mechanism.

# [ Unfavorable Factors ]

- (A) Smart phones have become popular and mobile APP has been on the market in recent years, changing the mode of people's communication and Internet access. If we cannot adjust to the current situation, the advantages of information monopoly of the future website platform will be divided in succession.
- (B) The domestic Internet market is limited, and the lack of Internet talents makes it difficult to select and cultivate talents.
- (C) The Company accumulates a large amount of member information. If the information security situation occurs, the Company may face the risk and loss of operation.

#### (Countermeasures)

In terms of information security countermeasures, the Company has adopted a large number of control and prevention measures to prevent hackers from intruding the database and Internet information security protection mechanism, including strict security management measures, password management measures, data management measures. It has also introduced a personal capital management system and established a rigorous personal capital management manual and education system. It was certified by BSI BS 10012:2009 Personnel Information Management System (PIMS) international standard in May 2016, which guarantees our members on international level.

In terms of operational strategies, the Company continues to take "food, clothing, housing, transportation education and entertainment" as its blueprint for development. Intelligent APP applications have been developed in succession to try to open up the mobile Internet market. As people spend different time and using different smart phone interfaces on browsing Internet, we are launching exclusive browsing web sites that are compatible with mobile devices. We believed that only those who are at the forefront of the trend can lay a solid market foundation. With the continuous emphasis on seamless interaction with

consumers, we can deepen our customer relationship and further highlight our differences in competition and comprehensive growth potential.

In terms of global strategy, the international vertical website companies in recent years have been quite aggressive and successful in expanding the international market. However, the new network market needs to cooperate with local network companies in order to obtain good development support and achieve a comprehensive effect of 1 plus 1 over 2. In the future, we will first contact the more familiar Southeast Asian market, as the beginning of the company's development of global layout. We hope to gain a firm foothold in the Taiwan market, and then start looking for suitable partners in Southeast Asia to formally expand overseas layout distribution.

### 2.2 Important Usages and Production Processes of Our Main Products:

### (1)Important usage of major products:

The online transaction platform is the main business of the Company.

# (2)Production processes for major products:

The online transaction platform is the main business of the Company and, thus, it is not applicable.

# 2.3 Supply Status of Main Materials:

The online transaction platform is the main business of the Company and, thus, it is not applicable.

# 2.4 Major Suppliers and Clients:

(1)Names of customers who accounted for more than 10% of the total amount of goods purchased/sold in the past two years, the amounts and percentages of the goods purchased/sold and the reasons for the increase or decrease:

The online transaction platform is the main business of the Company and, thus, it is not applicable.

### (2) Major clients in the last two calendar years:

The Company belongs to e-commerce, and its sales target is mainly general consumers, so there are no customers who account for more than 10% of the total sales.

#### 2.5 Production in the Last Two Years:

The Company is an E-Commerce company and there is no definite output and sales volume.

### 2.6 Shipments and Sales in the Last Two Years:

Unit: NT\$ thousand

Year Shipment		2020		2021

Note 1: There were remaining financial analysis has not been reviewed by accountants in the first quarter of 2022 as of the date of publication of the Annual Report.

<sup>(1)</sup> The variation in long-term fund to real-estate, plant and equipment was mainly due to purchase of a new office using bank borrowings and the resultant increase of the non-current liability.

<sup>(2)</sup> The variation in the interest protection ratio was mainly due to purchase of a new office using bank borrowings and the resultant increase of the interest expenses.

<sup>(3)</sup> The turnover rate of payables was mainly due to increase of the labor costs paid to subsidiaries and increase of the recognized expenses for restricted stock awards in the current period; the payables to subsidiaries in 2019 were paid late, leading a higher basis at beginning of 2020 and a higher variation of the turnover rate.

<sup>(4)</sup> The variation in cash reinvestment ratio mainly resulted from the significant increase in the cash flow for operating activities in the current period.

<sup>(5)</sup> The variation in the operating leverage was mainly due to increase of the operating revenue and slight decrease in the variable costs and expenses in the current period.

#### 2.2 Consolidated Financial Analysis - Adopting International Financial Reporting Standards:

	Year	Fin	ancial analy	sis for the p	ast five year	rs	as of Mar.
Item		2017	2018	2019	2020	2021	31, 2022
Financial	Debt to asset ratio	34.60	35.98	35.54	36.81	39.51	
structure (%)	Long term capital to property, plant and equipment ratio	239.99	243.29	231.81	227.93	242.42	
Solvency	Current ratio	168.91	151.89	151.16	143.03	149.89	
(%)	Quick ratio	166.84	149.56	150.55	142.43	148.93	
(%)	Interest coverage ratio	-	-	2,615.37	4,692.52	906.19	
	Receivable turnover rate (times)	10.11	9.35	8.89	9.23	11.03

Omanatin a	Inventory turnover rate (times)	7.39	16.81	47.71	-	-	
Operating	Payable turnover rate (times)	37.71	64.53	159.74	181.19	235.76	
capacity	Days sales outstanding	49.39	21.71	7.65	-	-	
	Property, plant and equipment turnover rate (times)	1.78	1.97	1.95	1.91	1.95	
	Total asset turnover rate (times)	0.49	0.53	0.53	0.54	0.54	Note 1
	Return on assets (%)	23.27	21.98	22.10	22.04	19.60	
	Return on equity (%)	34.44	33.96	34.39	34.54	31.71	
Profitabil ity	Pre-tax net profit to paid-in capital ratio (%)	144.02	177.00	177.46	181.37	178.14	
	Net profit rate (%)	46.65	40.96	40.92	40.40	35.88	
	Earnings per share (NT\$)	15.00	14.04	14.14	14.74	12.13	
	Cash flow ratio (%)	69.91	72.17	68.95	75.03	69.04	
Cash	Cash flow adequacy ratio (%)	84.69	99.63	97.96	114.74	105.80	
flow	Cash reinvestment ratio (%)	1.67	1.29	8.30	16.14	16.60	
	Operating leverage	1.48	1.40	1.16	1.54	1.67	
Leverage	Financial leverage	1.00	1.00	1.00	1.00	1.00	

Note 1: There were remaining financial analysis has not been reviewed by accountants in the first quarter of 2022 as of the date of publication of the Annual Report.

<sup>(1)</sup> The variation in the interest protection ratio was mainly due to purchase of a new office using bank borrowings and the resultant increase of the interest expenses in the current period.

<sup>(2)</sup> The variation in the turnover rate of receivables reached up to more than 20% in both periods. The primary reason was the adjustment of the collaboration mode with ad agents in 2018 Q4 and the collection period of receivables was shorter. However, since there were outstanding orders under the old mode, the balance of receivables at the beginning of the period in 2020 was higher and thus the turnover rate in 2020 was lower.

<sup>(3)</sup> The variation in the turnover rate of payables was mainly because the balance of the payables was the promissory notes for the rent. The increase of the operating revenue this year led to increase of the operating costs. The payables did not increase accordingly and the turnover rate was increased.

The above financial analysis is calculated as follows:

- 1. Financial structure
  - (1) Debt to asset ratio = total liabilities / total assets
  - (2) Long term capital to property, plant and equipment ratio = (total equity + non-current liabilities) / net property, plant and equipment

#### 2. Solvency

- (1) Current ratio = current assets / current liabilities
- (2) Quick ratio = (current assets inventory prepaid expenses) / current liabilities
- (3) Interest coverage ratio = net profit before income tax and interest expense / interest expense in the current period

#### 3. Operating capacity

- (1) Receivable (including accounts receivable and notes receivable due to business) turnover rate = net sales / average receivables for each period (including accounts receivable and notes receivable due to business)
- (2) Average cash recovery date = 365 / receivables turnover rate
- (3) Inventory turnover rate = sales cost / average inventory
- (4) Payable (including accounts payable and notes payable due to business) turnover rate = cost of sales / average balance payable on each period (including accounts payable and notes payable due to business)
- (5) Days sales outstanding = 365 / inventory turnover rate
- (6) Property, plant and equipment turnover = net sales / net average property, plant and equipment value
- (7) Total asset turnover rate = net sales / average total assets

#### 4. Profitability

- (1) Return on assets = [after tax profit and loss + interest expense  $\times$  (1 tax rate)] / average total assets
- (2) Return on equity = after tax profit and loss / average equity
- (3) Net profit rate = after tax profit and loss / net sales
- (4) Earnings per share = (profit or loss attributable to parent company owner special dividend) / weighted average number of issued shares

#### 5. Cash flow

- (1) Cash flow ratio = net cash flow from operating activities / current liabilities.
- (2) Cash flow adequacy ratio = net cash flow from operating activities in the last five years / (capital expenditure + inventory increase + cash dividend) in the last five years
- (3) Cash reinvestment ratio = (net cash flow from operating activities cash dividends) / (gross property, plant and equipment + long term investment + other non-current assets + working capital)

#### 6. Leverage:

- (1) Operating leverage = (net operating income changing operating costs and expenses) / operating profit.
- (2) Financial leverage = operating profit / (operating profit interest expense)

3. Audit committee's Report for the Most Recent Year:

Please refer to page 79 of the Chinese annual report.

Please refer to Appendix.

## VII. Review of Financial Conditions, Financial Performance, and Risk Management

#### 1. Analysis of Financial Status:

Unit: NT\$ thousand; %

Year	2021	2020	Difference		
Item	2021	2020	Amount	%	
Current assets	1,666,087	1,449,099	216,988	14.97%	
Investment by Equity method	63,690	49,714	13,976	28.11%	
Property, plant and equipment	892,452	826,785	65,667	7.94%	
Intangible assets	85,695	93,832	-8,137	-8.67%	
Other assets	567,130	478,231	88,899	18.59%	
Total assets	3,275,054	2,897,661	377,393	13.02%	
Current liabilities	1,111,539	1,013,125	98,414	9.71%	
Long-term liabilities	182,466	53,431	129,035	241.50%	
Total liabilities	1,294,005	1,066,556	227,449	21.33%	
Interests attributable to parent	1,975,065	1,817,077	157,988	8.69%	
company owner	1,973,003	1,017,077	137,900	8.0970	
Common stock	507,985	429,385	78,600	18.31%	
Capital reserve	380,740	378,336	2,404	0.64%	
Retained earnings	1,364,536	1,345,987	18,549	1.38%	
Other components of equity	(278,196)	(336,631)	58,435	-17.36%	
Non-controlling interests	5,984	14,028	-8,044	-57.34%	
Total equity	1,981,049	1,831,105	149,944	8.19%	

<sup>1.</sup> Variations exceeding 20% in the most recent two years to the amount of more than NT\$ 10 million:

<sup>(1)</sup> The variation in investment under equity method was mainly from the increased profit of the companies in which the Company invested under the equity method and the increased investment gains that the Company recognized.

<sup>(2)</sup> The variation in the non-current liabilities and total liabilities was mainly due to purchase of an office in the current period using bank borrowings partially and the resultant increase of the long-term loans.

<sup>2.</sup> Future countermeasures:

The above variations were normal in regular business activities without significant effect on the financial condition of the Company.

#### 2. Analysis of Financial Performance:

Unit: NT\$ thousand; %

			Cint. 1	1 5 mousand, 70
Year Item	2021	2020	Difference	% of change
Operating revenues	1,684,586	1,539,775	144,811	9.40%
Operating costs	449,837	344,728	105,109	30.49%
Gross profit	1,234,749	1,195,047	39,702	3.32%
Operating expenses	526,776	473,489	53,287	11.25%
Operating income	707,973	721,558	-13,585	-1.88%
Non-operating income and expenses	56,913	57,235	-322	-0.56%
Income from continuing operations before income tax	764,886	778,793	-13,907	-1.79%
Income tax expense	160,350	156,622	3,728	2.38%
Continued business unit net income	604,536	622,171	-17,635	-2.83%
Closed business unit profit (loss)	-	-	-	-
Net income	604,536	622,171	-17,635	-2.83%
Other comprehensive income (net after tax)	18,323	(25,926)	44,249	-170.67%
Total comprehensive income	622,859	596,245	26,614	4.46%
Net profit attributable to the Stockholders of the parent	612,426	627,399	-14,973	-2.39%
Total comprehensive income (loss) attributable to the Stockholders of the parent	630,903	602,326	28,577	4.74%

Variations exceeding 20% in the most recent two years to the amount of more than NT\$ 10 million:

- 1. Main reasons of the variation in the operating costs:
  - (1) The business of the Company's platforms increased in the current period and related costs increased as a result, such as recruitment of employees, server traffic flow data fees, and SMS fees.
  - (2) For ADDCN Technology (Shenzhen) Co., Ltd., the China government granted some reduction/exemption from the social security fee from February to December 2020 and the full amount was recovered in the current period. Consequently, the social security fee increased YoY.
  - (3) The Company offered restricted stock awards in Q4 last year as an incentive to the employees. The remuneration cost was recognize in current period.
- 2. The variation in other comprehensive income in the current period was mainly from the higher valuation loss amount of the equity instruments measured at fair value through other comprehensive income.

The Company establishes the annual performance goals with reference to the environment of the industry, future supply and demand on the market, the number of the members, and previous operating performance. The Company also enhances internal management efficiency, improve operating performance, and develop new business. Continuous growth of the sales amount is expected in the coming year.

#### 3. Analysis of Cash Flow:

#### 3.1 Cash Flow Analysis for the Current Year:

Unit: NT\$ thousand; %

Item	2021	2020	% of change		
Item	2021	2020	Amount	%	
Operating activity	767,421	760,232	7,189	0.95%	
Investing activity	(255,687)	(161,268)	-94,419	58.55%	
Financing activity	(379,807)	(538,447)	158,640	-29.46%	
Foreign exchange rate effect	90	(5,330)	5,420	-101.69%	
Net cash flow	132,017	55,187	76,830	139.22%	

The main reasons for the recent changes in cash flow are as follows:

- 1. The variation in the operating activities and net cash flow was mainly due to good revenue and increased advance sale receipts this year.
- 2. The variation in the investment activities was mainly due to purchase of an office and the resultant cash outflow in 2020.
- The variation in the financing activities was mainly due to purchase of an office and the resultant bank borrowings.

#### 3.2 Improvement plan for lack of liquidity:

The Company's net cash flow for the year was a net inflow and there was no cash inadequacy.

#### 3.3 Liquidity analysis for the next year:

It is expected that the revenue of the next year will continue to increase. Meanwhile, the Company is in the growing and profit-making stage and there is no likelihood of insufficient capital liquidity or cash deficiency.

#### 4. Major Capital Expenditure Items:

Since the Company's operation status is in good condition, the cash inflow from the business operation is stable, and the fund of major capital expenditure for purchase of real-estate for own use in the most recent years came from the working capital of the Company, there was no significant impact on the Company's finance.

## 5. Investment Policy in the Last Year, Main Causes for Profits or Losses, Improvement Plans and Investment Plans for the Coming Year:

#### 5.1 Reinvestment policy in the past year:

Based on the operation needs and consideration of future development, the Company is going to invest in the companies related to the main business of the Company, and an improved overall operating performance is expected by doing so.

Unit: NT\$ thousand

Invested company	Shareholding percentage		Policy	Main causes of profit or loss		Investmen t plans for the next year
ADDcn Technology (Samoa) Co., Ltd	100%	3,831	Offshore holding company	Investment gains recognized due to the profit of invested business and company		-
ADDCN Technology (Shenzhen) Ltd	100%	22,708	Provision of maintenance, operations, and customer services for ADDCN Technology Co., Ltd.	Provision of services and proper management of the expenses	1	-

Invested company	1 0	Gain (loss) recognized in the most recent years	Poncy	Main causes of profit or loss	Rectificati on	Investmen t plans for the next year
ADDCN Technology (Hong Kong) Co., Ltd			Development of oversea markets	The new platform 8591, which has not achieve the goal of market share at the current stage but organized marketing and advertising events on an irregular basis.	-	-
digit marketing Co., Ltd.	30.29%	26,259	Advertising for the platform's operation	The invested company's strength in the industry is a complement to the brand awareness of the Company to improve the profitability.	-	-

#### 5.2 Main reasons for profit or loss and improvement plan:

Loss from investment of the Company: ADDCN Technology (Hong Kong) Co., Ltd. built the new platform 8591, which has not achieve the goal of market share at the current stage but organized marketing and advertising events on an irregular basis. These were the main factors leading to the slight loss of the company; the operating revenue of 591 Property Trading dropped due to the epidemic.

- 5.3 Investment plan in the coming year: None.
- 6. Analysis of Risk Management:
- 6.1 Impact of Changes in Interest Rates, Foreign Exchange Rates and Inflation on Corporate Finance, and Future Response Measures:

#### (1)Interest rate

The Company applied for bank loans for purchase of an office in the current period. The interest rate was about  $1.00\% \sim 1.25\%$  and the generated interest cost was NT\$719 thousand, occupying 0.04% of the net operating revenue. The ratio was very low and, thus, the change of the interest rate would not increase the expenses of the Company.

The Group mainly deposits the funds in current and time deposits. The interest revenue in 2021 and 2020 was NT\$ 3,144 thousand and NT\$ 4,008 thousand accounting for 0.19% and 0.26%, respectively, of the operating revenue. Since the ratios were quite small, the impact on the Group's profit was limited.

#### (2)Exchange rates

The Group's amounts of purchase and sale are denominated in NT\$. The exchange gain (loss) in each year is mainly from the collection and payment of service costs between affiliates. The consolidated exchange gains (losses) in the most recent two years accounted for less than 1% of the net operating revenue and operating profit, respectively, showing that variation of the exchange rate did not have any material effect on the Group's profit.

#### (3)Inflation

The Group has not been significantly affected by inflation so far. We will continue to pay attention to the overall price level and the changes in the market, and will appropriately adjust the price and control the cost structure in response to the market condition.

6.2 Policy on high-risk, high-leverage investments, loaning of funds, endorsements and guarantees as well as derivatives transactions, major causes for profits or losses and future countermeasures:

The Group focuses on the operation of the main business. Our financial management is based on the principle of conservation and stability, and we are not engaged in any high-risk and high-leverage investment. The Group has established regulations for loaning funds to others, endorsements, guarantees, and derivatives trading. Up to the prospectus' publication date, the Group had never been engaged in loaning funds to others, endorsements, guarantees, and derivatives trading.

6.3 Future research and development projects, and expenditures expected in connection therewith:

The Group's future research and development plans will utilize the knowledge and technology related to the network structure accumulated by the Group to continue optimizing the service of the original portal and developing new application services. By providing novel, various, convenient functions on the website, we can enhance customers' loyalty, attract new members, and expand the market share continuously to become a network operator that combines the development, operations, and promotion of websites.

The Group's R&D expenses in 2020 and 2019 were NT\$ 51,785 thousand and NT\$ 45,654 thousand accounting for 3.36% and 3.11%, respectively, of the revenue in the current year. In the future, we will depend on the operation status, profit-seeking targets in line with the product development plan of the Company to use our resources in R&D to develop new products that meet the market trend and customer's needs. The Company plans to invest approximately 2% to 10% of the total revenue for the year in R&D expenditures in 2021.

6.4 Financial impacts and responsive measures in the event of changes in local and foreign regulations:

The Group not only follows relevant domestic and foreign laws and regulations to conduct the operation, but also pays constant attention to the policy development trends and changes of laws and regulations in Taiwan and foreign countries. We assign professional personnel to attend internal and external training courses irregularly to understand the changes of the political and economic situation in Taiwan and foreign countries. So far, the Group's financial operations have not been significantly affected by the changes in domestic and foreign policies or regulations.

6.5 The impact on the Company's financial operations of developments in science, technology, and industry, and the measures the Company plans to adopt in response:

With the improvement of technology, the fast growth of the global computer usage, and the upgrade of broadband service in recent years, the penetration rate of the computer and Internet becomes higher and the living style changes as a result. Since the establishment, the Group has continued to improve the service quality and made efforts to provide new online new functions. We have also looked for new applications of related information services to provide convenient, service-oriented and completed platforms. Meanwhile, we have paid constant attention to the changes in the industrial technology and the development trend of e-commerce to quickly response to the situation and grasp opportunities to increase profit. Hence, the development in science, technology, and industry has a positive impact on the Group's financial operations.

The Company has endeavored to ensure the control and management of the information security and the personal data protection. We established the committee for assessment of information management which is responsible to promote, coordinate, and supervise the matters relating to the protection of information of the Company in 2013. Meanwhile, we also engaged the third-party certification unit to regularly assess the information security of the Company. Also, the Company passed the SGS international certification and BS 10012 PIMS (Personal Information Management System) in 2017. We maintain the information security regularly every year and continue to pass the certification to preserve its effectiveness to ensure the highest-level protection of the clients' information under multi-layers information security controls. In addition, to protect clients' rights of privacy, the Company set up the 'Privacy Policy' page on the official website that reports the collection, process, use of clients' information which comply with the regulations related to 'Personal Data Protection Act'. We also established "Personal Data, Document and Record Management Procedure," "Personal Data Inventory and Risk Management Procedure," "Accident Response Management Procedure," "Personal Data Audit and Corrective/Preventive Management Procedure" and "Personal Data Outsourcing Management Procedure." All persons must only process and use the necessary information based on the well-defined authorized regulation. The information must be properly preserved according to the regulation of the inventory form and be deleted effectively depending on the retention period. In addition, we have engaged a third-party certification unit to scan the internal and external information security of the Company every year since 2014 to ensure the information environment and technology is secure. Since the same year, the inspection overview and the planning of information security of the current year have been regularly submitted to the board of directors meeting.

The Company adopted the best technology to guarantee the security of the clients' personal data. Currently, we use the Secure Sockets Layer (SSL) mechanism (256Bit) to encrypt the data transmission, and install firewall to prevent the clients' personal data from illegal access by illegal attacks. Meanwhile, we cooperated with the Internet service provider to expand network resources to further prevent Distributed Denial-Of-Service attack, and provided Content Distribution Network to be able to transmit the service contents to the users more quickly, reliably and efficiently. To provide the service that is more suitable to the clients, we use Cookie to receive and record the servers' data including IP Address and Cookies which to be used in the work of updating products and optimizing Internet service. To improve the network security, we have equipped the websites with HTTPS which is an encrypted transfer protocol secure to protect the privacy of transaction information in 2014. Since the establishment, the Company has never received incidents that could have impact on the personal data security, which sufficiently proves that the Company takes the establishment and fulfillment of the information security policy very seriously.

In addition, the occurrence of the network and information security incident could have partially evolved into the personal data breach. Therefore, the Company brought in 'Face Recognition System' and 'Employee Internet Access Identification System' to strength control over the personnel access in 2019. Meanwhile, we actively found an insurance company to insure 'Cyber Insurance' to effectively reduce the losses and damages caused by the occurrence of incidents.

6.6 The Impact of Changes in Corporate Image on Corporate Risk Management, and the Company's Response Measures:

Since the establishment, the Group has focused on operating the main business, developing products, taking internal management seriously and complying with relevant laws and regulations strictly; so far, no impact that damaged the Group's image has occurred. We will completely comply with relevant laws and regulations, implement every requirement of the corporate governance and consult with experts timely to lower the risk and the impact on the Group's financial operations as a result thereof.

6.7 Expected Benefits from, Risks Relating to and Response to Merger and Acquisition Plans:

The Group did not have in-progress merger projects or plans of merging other companies in the most recent year and up to the publication date of the prospectus. The Company has established the "Audit committee." We will consider the synergy of merger with prudent assessment if there is any merging plan, and submit it to the Audit committee for review to secure shareholders' interests.

6.8 Expected Benefits from, Risks Relating to and Response to Factory Expansion Plans:

The Group is not a manufacturer; thus expansion of plants is not applicable. Also, for the platform expansion plan, the Group will utilize the operation planning, market assessment, product design and financial estimation to assess the risk and provide responsive strategies for them.

6.9 Risks Relating to and Response to Excessive Concentration of Purchasing Sources and Excessive Customer Concentration:

#### (1)Purchase

The Group's 8591 Virtual Treasure Trading, 591 Property Trading, 8891 Cars Trading and 518 Human Resource are online transaction platforms that do not procure or manufacture physical product. Hence, there is no purchase consolidation risk.

#### (2)Sales

Due to the characteristics of the Group's business, there is no specific buyer. The total revenue of top-10 customers only accounts for less than 10% of the consolidated operating revenue and, thus, there is no sales consolidation risk.

6.10 Effects of, Risks Relating to and Response to Large Share Transfers or Changes in Shareholdings by Directors, Supervisors, or Shareholders with Shareholdings of over 10%:

In the most recent year and up to the publication date of the prospectuses, there is no major transfer of shareholding by directors, supervisors, or major shareholders with more than 10% of shareholding.

6.11 Effects of, Risks Relating to and Response to the Changes in Management Rights:

The Company's shares are mainly held by directors/supervisors and employees who have a strong sense of mission toward the Company and participate in significant decisions on a long-term basis, maintaining a high-growth and best operating performance of the Company in recent years. We will also uphold an operational and ethical belief of steadiness and integrity to obtain the recognition from all shareholders towards the management team. Therefore, the Company will not have impact and risk due to changes of the management power.

#### **Independent Auditors' Report**

To the Board of Directors of Adden Technology Co., Ltd:

#### **Opinion**

We have audited the consolidated financial statements of Adden Technology Co., Ltd and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, and the consolidated statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

#### **Basis for Opinion**

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### 1. Revenue recognition

Please refer to note 4(n) for the accounting policy of "Revenue" and note 6(s) for composition of revenue.

Description of key audit matter:

Sales Revenue of the Group is mainly generated from operating online platforms. The way of revenue recognition varies by different types of transactions and its economic substances. Also, there is a large volume of transactions through the online platforms day-by-day with system-controlled trading information and procedures.

Therefore, transaction information and the timing of revenue recognition is an important issue in our audit of the consolidated financial statements.

How the matter was addressed in our audit:

Our principal audit procedures included: understanding trading model of each online platform and its principal system-based application control and manual control, including involving IRM specialist in testing the general information technology environment and related application control of their main transaction processes; obtaining the monthly income statement generated by the system of online platforms, assessing whether the system processes transaction information appropriately, and inspecting some samples of accounting vouchers to see if they agree with the monthly income statement generated by the system.

#### Other Matter

Adden Technology Co., Ltd has prepared its parent-company-only financial statements as of and for the years ended December 31, 2021 and 2020, on which we have issued an unqualified opinion.

## Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the supervisors) are responsible for overseeing the Group's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Cheng-Chien Chen and Yung-Hua Huang.

**KPMG** 

Taipei, Taiwan (Republic of China) March 30, 2022

#### **Notes to Readers**

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' audit report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' audit report and consolidated financial statements, the Chinese version shall prevail.

Cash and cash equivalents at beginning of period	725,288	670,101
Cash and cash equivalents at end of period \$_=	857,305	725,288

#### **Notes to the Consolidated Financial Statements**

For the years ended December 31, 2021 and 2020

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

#### (1) Company history

Adden Technology Co., Ltd (the "Company") was incorporated in January 23, 2007 as a company limited by shares and registered under the Ministry of Economic Affairs, ROC. The Company was registered in 10F, No.12, Lane 609, Sec 5, Chungshin Rd., Sanchung Dist., New Taipei City. The consolidated financial statements of the Company as of and for the year ended December 31, 2019 comprised the Company and its subsidiaries (together referred to as the "Group" and individually as "Group entities"). The major business activities of the Group are online trade platform operation and services. Please refer to note 14 for related information of the Group entities' main business activities. The Company's common shares were listed on the Taipei Exchange (TPEx) since January 20, 2014.

#### (2) Approval date and procedures of the consolidated financial statements

These consolidated financial statements were authorized for issue by the Board of Directors on March 23, 2022.

#### (3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2021:

- Amendments to IFRS 4 "Extension of the Temporary Exemption from Applying IFRS 9"
- Amendments to IFRS 9, IAS39, IFRS7, IFRS 4 and IFRS 16 "Interest Rate Benchmark Reform—Phase 2"

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from April 1, 2021:

- Amendments to IFRS 16 "Covid-19-Related Rent Concessions beyond June 30, 2021"
- (b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2022, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 16 "Property, Plant and Equipment Proceeds before Intended Use"
- Amendments to IAS 37 "Onerous Contracts—Cost of Fulfilling a Contract"
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 "Reference to the Conceptual Framework"

#### (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"	The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of balance sheet, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments include clarifying the classification requirements for debt a company might settle by converting it into equity.	January 1, 2023
Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"	The amendments narrowed the scope of the recognition exemption so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.	January 1, 2023

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17 "Insurance Contracts"
- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"

#### (4) Summary of significant accounting policies:

The significant accounting policies presented in the consolidated financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

#### (a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations") and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C. (hereinafter referred to as the IFRS endorsed by FSC).

#### (b) Basis of preparation

#### (i) Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

- 1) Financial instruments at fair value through profit or loss are measured at fair value;
- 2) Financial assets at fair value through other comprehensive income are measured at fair value.

#### (ii) Functional and presentation currency

The functional currency of each Group Entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan dollars (NTD), which is the Company's functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

#### (c) Basis of consolidation

#### (i) Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intragroup balances and transactions, and any unrealized income and expenses arising from Intragroup transactions are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

#### (ii) List of subsidiaries in the consolidated financial statements

Subsidiaries listed in the consolidated financial statements are included as below.

			Percentage of	of ownership_	
Name of		Principal	December 31,	December 31,	
investor	Name of subsidiary	activity	2021	2020	Description
The Company	Adden Technology (Samoa) Co., Ltd	Investment holdings	100.00 %		The Company directly owns 100% of equity.
Adden Technology (Samoa) Co., Ltd	Adden Technology (SHENZHEN) Co., Ltd.	Applied system management, maintenance and customer service	100.00 %		The Company indirectly owns 100% of equity.
Adden Technology (Samoa) Co., Ltd	Adden Technology (HK) Co., Limited	Electronic information supply	70.00 %		The Company indirectly owns 70% of equity.

(iii) Subsidiaries excluded from the consolidated financial statements: None.

#### (d) Foreign currencies

#### (i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Nonmonetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- an investment in equity securities designated as at fair value through other comprehensive income;
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- qualifying cash flow hedges to the extent that the hedges are effective.

#### (ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to noncontrolling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, Exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

#### (e) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

### (f) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

#### (g) Financial Instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

### (i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; Fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

#### 1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

### 2) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Group's right to receive payment is established.

### 3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

#### 4) Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, and are consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

5) Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial assets on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features)

### 6) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivable, guarantee deposit paid and other financial assets), debt investments measured at FVOCI and contract assets.

The Group measures loss allowances at an amount equal to lifetime expected credit loss (ECL), except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 1 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 60 days past due or the debtor is unlikely to pay its credit obligations to the Group in full.

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings'.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial assets is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 60 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charge to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Group has a policy of writing off the gross carrying amount when the financial asset is 2 years past due based on historical experience of recoveries of similar assets. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

#### 7) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

### (ii) Financial liabilities and equity instruments

### 1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### 2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

#### 3) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

### 4) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

### 5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

#### (h) Investment in associates

Associates are those entities in which the Group has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of those associates, after adjustments to align their accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual profortionate share.

Gains and losses resulting from transactions between the Group and an associate are recognized only to the extent of unrelated Group's interest in the associate. When the Group's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

When the Group subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Group's proportionate interest in the net assets of the associate. The Group records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. The aforesaid adjustment should first be adjusted under capital surplus. If the capital surplus resulting from changes in ownership interest is not sufficient, the remaining difference is debited to retained earnings. If the Group's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate will be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

### (i) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services, or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. Depreciation expense is calculated based on the depreciation method, useful life, and residual value which are the same as those adopted for property, plant and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

## (j) Property, plant and equipment

## (i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

### (ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

### (iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straightline basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) Buildings 50 years

2) Office equipment 1~5 years

3) Lease improvements 1~5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (iv) Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the use of the property changes from owneroccupied to investment property.

#### (k) Lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### (i) As a leasee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- 1) fixed payments, including in-substance fix payments;
- 2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- 3) amounts expected to be payable under a residual value guarantee; and
- 4) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- 1) there is a change in future lease payments arising from the change in an index or rate; or
- 2) there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- 3) there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- 4) there is a change of its assessment on whether it will exercise a purchase, extension or termination option; or
- 5) there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

If an arrangement contains lease and non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases of printer and a part of office that have a lease term of 12 months or less and leases of low-value assets, including IT equipment. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### (ii) As a leasor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies IFRS15 to allocate the consideration in the contract.

#### (1) Intangible assets

#### (i) Recognition and measurement

Goodwill arising on the acquisition of subsidiaries is measured at cost, less accumulated impairment losses.

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets, including customer relationships, patents and trademarks, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

## (ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

#### (iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

1) Trademarks and patents 6~10 years

2) Computer software 3~10 years

3) Customer relationships and databases 10 years

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (m) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

### (n) Revenue

#### (i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

### 1) Online advertising platform services

The Group provides advertising services to customers. Revenue from providing services is recognized in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. The proportion of services provided is determined based on the actual advertising hours spent relative to the total expected advertising hours.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the services rendered by the Group exceed the payment, a contract asset is recognized. If the payments exceed the services rendered, a contract liability is recognized.

#### 2) Commission

The Group only acts as a platform provider when it provides online trading platform services. Commission is received by a fixed proportion of transaction price when the buyer and seller confirm that the transaction is finished.

## 3) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the group does not adjust any of the transaction prices for the time value of money.

#### (ii) Contract costs

### 1) Incremental costs of obtaining a contract

The Group recognizes as an asset the incremental costs of obtaining a contract with a customer if the Group expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Group applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

#### 2) Costs to fulfil a contract

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (for example, IAS 2 Inventories, IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets), the Group recognizes an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria:

- the costs relate directly to a contract or to an anticipated contract that the Group can specifically identify;
- the costs generate or enhance resources of the Group that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- the costs are expected to be recovered.

General and administrative costs, costs of wasted materials, labor or other resources to fulfil the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Group cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations(or partially satisfied performance obligations), the Group recognizes these costs as expenses when incurred.

## (o) Employee benefits

## (i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

### (ii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

### (p) Share-based payment

The grant-date fair value of equity-settled share-based payment awards granted to employees is generally recognized as employee expenses, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

For share based payment awards with non-vesting conditions, the grant-date fair value of the share based payment is measured to reflect such conditions, and there is no true up for differences between expected and actual outcomes.

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognized as an expense, with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and settlement date based on the fair value of the share appreciation right. Any changes in the liability are recognized as personnel expenses in profit or loss.

Grant date of a share-based payment award is the date which the board of directors decide the date of capital increase.

#### (q) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

The Group has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS37.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Group has a legally enforceable right to set off currenttax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
  - 1) the same taxable entity; or
  - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

#### (r) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as employee stock options.

## (s) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

### (5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing these the consolidated financial statements, management has made judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is as follows:

(a) Judgment of whether the Group has substantive control over its investees

The Group holds 30.29% of the outstanding voting shares of Digit Marketing Co., Ltd. and is the single largest shareholder of the investee. Although the remaining 69.71% of Digit Marketing Co., Ltd.'s shares are not concentrated within specific shareholders, the Group still cannot obtain more than half of the total number of Digit Marketing Co., Ltd.'s directors, and it also cannot obtain more than half of the voting rights at a shareholders' meeting. Therefore, it is determined that the Group has significant influence on Digit Marketing Co., Ltd..

For the assumptions and estimation uncertainties, there were no significant risk resulting in a material adjustment within the next financial year.

The Group's financial instrument valuation group conducts independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This financial instrument valuation group also periodically adjusts valuation models, conducts back testing, renews input data for valuation models, and makes all other necessary fair value adjustments to assure the rationality of fair value. The Group strives to use market observable inputs when measuring assets and liabilities. Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

- (a) Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- (b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie as prices) or indirectly (ie derived from prices).
- (c) Level 3: inputs for the assets or liability that are not based on observable market data.

Please refer to Note 6(w) for assumptions used in measuring fair value.

## (6) Explanation of significant accounts:

## (a) Cash and cash equivalents

	Dec	ember 31, 2021	December 31, 2020
Cash	\$	432	709
Demand deposits and check deposits		856,873	724,579
Cash and cash equivalents in the consolidated statement of cash flows	\$	857,305	725,288

Please refer to note 6(w) for the interest rate risk, and sensitivity analysis of the financial assets and liabilities of the Group.

### (b) Financial assets at fair value through profit or loss

	Dec	ember 31, 2021	December 31, 2020
Financial asset designated as at fair value through profit or loss:			
Bonds issued in RMB by Credit Suisse	\$	6,152	6,296
Corporate bonds-Apple Inc.		14,770	16,513
Total	\$	20,922	22,809

## (c) Financial assets at fair value through other comprehensive income

	ember 31, 2021	December 31, 2020
Debt investments at fair value through other comprehensive		
income	\$ 13,913	14,965
Subtotal	 13,913	14,965
Equity Investments at fair value through other comprehensive income:		
Stocks listed on domestic markets	17,864	14,417
Stock unlisted on domestic markets	 121,001	111,915
Subtotal	 138,865	126,332
Total	\$ 152,778	141,297

### (i) Debt investments at fair value through other comprehensive income

The Group has assessed that the following securities are held within a business model whose objective is achieved by both collecting the contractual cash flows and by selling securities; therefore, they have been classified as debt investments at fair value through other comprehensive income.

On December 22, 2020, the Group has sold its investments as a result of the Group's investment strategy. The investment sold had a fair value of \$17,838 thousand and the Group realized a gain of \$608 thousand, which has been reclassified from other equity interest to profit or loss.

(ii) Equity investments at fair value through other comprehensive income

The Group designated the investments shown above as equity securities as at fair value through other comprehensive income because these equity securities represent those investments that the Company intends to hold for long-term for strategic purposes.

During the years ended December 31, 2021 and 2020, the dividends of \$1,510 thousand and \$3,010 thousand, respectively, related to equity investments at fair value through other comprehensive income held on the years then ended, were recognized.

In January, April and June of 2020, the Group sold Bridge Roots Fund Ltd., which was designated to be measured at fair value through other comprehensive income, as the result of the Group's investment strategy. The fair value at the time of disposal was \$ 90,779, \$11,700 and \$1,152 thousand, and the Group realized a gain of \$31,589 thousand, which has been transferred from other equity interest to retained earnings.

In December of 2021 and June of 2020, the amount received from the capital reduction by Jacker cleaning Inc. and Element I Venture Capital Co., Ltd. was \$2,178 thousand and \$2,000 thousand, respectively.

There were no disposals of strategic investments and transfers of any cumulative gain or loss within equity relating to these investments as of December 31, 2021.

- (iii) For credit risk (including the impairment of debt investments) and market risk; please refer to note 6(w).
- (iv) None of the above financial assets were pledged as collateral for long-term borrowings.
- (d) Note and trade receivables

	Dec	December 31, 2021			
Note receivables	\$	-	1,045		
Trade receivables		111,463	99,902		
Less: Loss allowance		(20,998)	(24,598)		
	<u>\$</u>	90,465	76,349		

(i) The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The loss allowance provision were determined as follows:

		De	ecember 31, 202	21	
		ss carrying mount	Weighted- average loss rate	Loss allowance provision	
Current	\$	90,468	0%	3	
1 to 60 days past due		-	10%~20%	-	
More than 60 days past due		20,995	20%~100%	20,995	
Total	\$	111,463		20,998	
	December 31, 2020				
		ss carrying amount	Weighted- average loss rate	Loss allowance provision	
Current	\$	79,698	0%	3,349	
1 to 60 days past due		254	10%~30%	254	
More than 60 days past due		20,995	30%~100%	20,995	
	\$	100,947		24,598	

(ii) The movement in the allowance for notes and trade receivable were as follows:

	2021	2020
Balance at January 1	\$ 24,598	24,598
Amounts reversed due to recovery	 (3,600)	
Balance at December 31	\$ 20,998	24,598

- (iii) The aforementioned notes and trade receivable of the Group had not been pledged as collateral for long-term borrowings.
- (e) Investments accounted for using equity method

The Group's financial information for investments accounted for using the equity method that are individually insignificant was as follows:

	Dec	cember 31, 2021	December 31, 2020
Carrying amount of individually insignificant associates' equity	\$	63,690	49,714
In 2020 and 2019, the Group's share of the net income of associa	ites w	as as follows:	:
		2021	2020
Attributable to the Group:			
Profit from continuing operations	\$	26,259	29,206
Other comprehensive income		-	
Comprehensive income	\$	26,259	29,206

The Group does not have any contingent liabilities arising from associate with other investor or for individual responsibility.

There is no significant restrictions to transfer financial resource from associate to the Group.

As of December 31, 2021 and 2020, the Group did not provide any investments accounted for using the equity method as collateral for its loans.

## (f) Property, plant and equipment

The cost, depreciation, and impairment of the property, plant and equipment of the Group for the years ended December 31, 2021 and 2020, were as follows:

		Land	Buildings and constructions	Office equipment	Leasehold improvements	Construction in progress	Total
Cost or deemed cost:							
Balance at January 1, 2021	\$	172,284	713,373	101,946	16,545	-	1,004,148

Balance at January 1, 2020	\$	172,284	572,290	19,681	6,323	12,500	783,078
Balance at December 31, 2020	\$	172,284	633,593	16,517	4,391		826,785

(Continued)

As of December 31, 2021 and 2020 the property, plant and equipment of the Group had been pledged as collateral for long-term borrowings; please refer to note 8.

## (g) Investment property

Investment property comprises office buildings owned by the Group that are leased to third parties. The leases are 1 to 3 years non-cancellable period, and the rental income are fixed under the lease contracts.

Investment property movement of the Group were as follows:

		Owned pr	operty	
		Land	Buildings and structures	Total
Cost or deemed cost:				
Balance at January 1, 2021	\$	71,336	221,666	293,002

Carrying amount:				
Balance at December 31, 2021	\$	95,041	283,460	378,501
Balance at January 1, 2020	\$	71,336	36,065	107,401
Balance at December 31, 2020	\$	71,336	211,369	282,705
Fair value:				
Balance at December 31, 2021			\$	407,155
Balance at December 31, 2020			\$	315,939

Investment property comprises a number of commercial properties that are leased to third parties. Each of the leases contains a 1 to 3-years non-cancellable period. Subsequent renewals are negotiated with the lessee and no contingent rents are charged. In addition, the Group has no longer used part of the office in Shenzhen, it decided to lease the office to others. Thus transferred the office from real estate, plant and equipment to investment property. For further information (including rental income and related operating expenses) please refer to note 6(f).

As of December 31, 2021 and 2020, the property, plant and equipment of the Group had been pledged as collateral for long-term borrowings; please refer to note8.

### (h) Intangible assets

The cost, amortization and impairment of the intangible assets of the Group for the years ended December 31, 2021 and 2020, were as follows:

Clinat

	G	oodwill	Brand/Trade marks	Client relationship/ Database/518 computer system	Others	Total
Cost:						
Balance at January 1, 2021	\$	58,000	27,656	59,208	9,805	154,669

Carrying value:						
Balance at December 31, 2021	\$	58,000	7,369	16,282	4,044	85,695
Balance at December 31, 2020	\$	58,000	10,049	22,203	3,580	93,832
Balance at January 1, 2020	\$	58,000	12,729	28,124	3,355	102,208

### (i) Amortization expense

The amortization of intangible assets is included in the statement of comprehensive income:

	2	2021	2020
Operating expenses	\$	9,975	9,684

### (ii) Impairment test of goodwill

Goodwill arising from the acquisition of 518 Technology Co., Ltd. on January 1, 2015, valued at \$58,000 thousand, was mainly attributable to the expected benefit derived from the operating revenue growth of 518 Human Resource. According to IAS 36, goodwill acquired in a business combination is tested for impairment at least annually. For the purposes of impairment testing, goodwill is allocated to each of the acquirer's cash-generating units, that are expected to benefit from the synergies of the combination. Job searching websites were a group of cash-generating units that can generate independent cash inflows; therefore, goodwill is tested for impairment by comparing the recoverable amount of job searching websites with their carrying amount to determine whether an impairment loss should be recognized.

Based on the result of impairment test, the recoverable amount of job searching websites was greater than their carrying amount; thus, no impairment loss was recognized.

The recoverable amount of job searching websites was based on their value-in-use, determined by discounting the future cash flows to be generated from the continuing use of job searching websites. The key assumptions used in the estimation of value-in-use were as follows:

	December 31, 2021	
Discount rate	7.70 %	9.39 %

The discount rate was a pre-tax measure based on the capital asset pricing model, adjusted for a risk premium to reflect both the increased risk of investing in equities generally and the systemic risk of the specific CGU.

### (iii) Guarantee

As of December 31, 2021 and 2020, the intangible asset of the Group had not been pledged as collateral for long term borrowings.

#### (i) Other financial assets

Other financial assets of the Group were as follows:

	Dec	cember 31, 2021	December 31, 2020
Time deposit due within one year	\$	104,590	104,590
Other receivables		2,941	2,810
Current restricted assets		548,312	466,079
	\$	655,843	573,479

Current restricted assets mainly consist of time deposits pledged as collateral and receipts under custody from transaction between members on 8591 Virtual Treasure Trade. Please refer to note 8 for the information of pledged assets.

## (j) Other current assets and other non-current assets

Other current assets and other non-current assets were as follows:

	December 31, 2021	December 31, 2020
Current prepaid expense	\$ 10,581	6,103
Current temporary payments	14,709	12,289
Subtotal	25,290	18,392
Guarantee deposits paid	1,124	1,134
Right-of-use asset	6,688	9,232
Non-current prepaid expense		10,150
Subtotal	7,812	20,516
Total	\$ 33,102	38,908

### (i) Current prepaid expense

Current prepaid expense mainly consist of system outsourcing fee, domain service fee, rent and insurance.

### (ii) Current temporary payments

Temporary payments consist of website event bonus payment on 8591 Virtual Treasure Trade and others.

#### (iii) Non-current prepaid expense

Non-current prepaid expense consists of down payment on office space.

### (k) Other payables and Receipts under custody

Other payables and Receipts under custody were as follows:

	Dec	ember 31, 2021	December 31, 2020
Current tax liabilities	\$	78,402	75,618
Employee compensation payable		48,748	54,552
Compensation due to directors and supervisors		7,020	7,560
Wages and salaries payable		101,660	121,828
Expenses payable		64,589	59,784
Other		2,746	3,767
Subtotal		303,165	323,109
Receipts under custody		521,147	437,327
Total	\$	824,312	760,436

(Continued)

Receipts under custody are collection on behalf of others which are not completed from member transaction on 8591 Virtual Treasure Trade. The collection is deposited in individual trust account of E. Sun Bank and other bank accounts.

## (l) Long-term borrowing

The long-term notes and bills payable were summarized as follows:

	December 31, 2021
Secured loan	\$ 128,925
Less: Discount on short-term notes and bills payable	(8,868)
Total	\$120,057
Unused credit lines	\$3,980
Range of interest rates	<u>1.00%~1.20%</u>

Please refer to note 8 for the information of pledged assets.

The Group had no long-term borrowings as of December 31, 2020.

## (m) Operating lease

#### (i) Leases as lessor

The Company leases out its investment property. The Company has classified these leases as operating leases, because it does not transfer substantially all of the risks and rewards incidental to the ownership of the assets. Please refer to note 6(g) sets out information about the operating leases of investment property.

A maturity analysis of lease payments, showing the undiscounted lease payment to be received after the reporting date are as follows:

	Dec	ember 31, 2021	December 31, 2020
Less than one year	\$	13,571	2,090
One to two years		3,701	380
Total undiscounted lease payment	\$	17,272	2,470

Rental income from investment property was \$12,051 thousand and \$5,351 thousand for the years ended December 31, 2021 and 2020, respectively.

### (n) Employee benefits

The Company allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. The pension benefit obligation of Adden Technology (Shenzhen) Co., Ltd is defined contribution plan. Adden (Shenzhen) contributes and deposits insurance money to employee's endowment insurance account, which is totally separated from the company. The account transfers as long as the employee leaves and the money contributed should be recognized as current expense. Under these defined contribution plans, the Company allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The pension costs amounted to \$28,682 thousand and \$6,953 thousand for the years ended December 31, 2021 and 2020, respectively.

#### (o) Income tax

### (i) Income tax expense

The components of income tax in the years ended December 31, 2021 and 2020 were as follow:

	 2021	2020
Current tax expense		
Current period	\$ 156,395	150,347
Adjustment for prior periods	 200	1,964
	 156,595	152,311
Deferred tax expense		
Origination and reversal of temporary differences	 3,755	4,311
Tax expense	\$ 160,350	156,622

For the years ended December 31, 2021 and 2020, there was no income tax recognized in equity or other comprehensive income.

Reconciliation of income tax and profit before tax for the years ended December 31, 2021 and 2020 were as follows:

	2021	2020
Profit excluding income tax	\$ 764,886	778,793
Income tax using the company's domestic tax rate	152,977	155,758
Effect of tax rates in foreign jurisdiction	4,699	3,433
Non-deductible expense	350	130
Tax-exempt income	(5,482)	(6,443)
Tax incentives	(153)	-
Change in unrecognized temporary differences	4,404	1,691
Additional tax on undistributed earnings	2,774	-
Others	 781	2,053
	\$ 160,350	156,622

(Continued)

#### (ii) Deferred tax assets and liabilities

### 1) Unrecognized deferred tax liabilities

The consolidated entity is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as of December 31, 2021 and 2020. Also, management considers it probable that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences are not recognized under deferred tax liabilities. Details are as follows:

		Dec	ember 31, 2021	December 31, 2020
	Unrecognized deferred tax liabilites	\$	8,345	6,028
2)	Unrecognized deferred tax assets			
		Dec	ember 31, 2021	December 31, 2020
	Tax effect of deductible temporary differences	\$	15,523	10,427
	The carryforward of unused tax losses		14,805	12,211
		<b>\$</b>	30,328	22,638

The Inland Revenue Department allows net losses, as assessed by the tax authorities, to offset taxable income for local tax reporting purposes. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom.

### (iii) Recognized deferred tax assets and liabilities

Change in the amount of deferred tax assets and liabilities for 2021 and 2020 were as follows:

	osses on vestments	Others	Total
Deferred tax assets:		_	
Balance at January 1, 2021	\$ 9,000	1,904	10,904
Recognized in profit or loss	(3,000)	(792)	(3,792)
Effect of movement in exchange rates	 	5	5
Balance at December 31, 2021	\$ 6,000	1,117	7,117
Balance at January 1, 2020	\$ 12,000	3,245	15,245
Recognized in profit or loss	(3,000)	(1,342)	(4,342)
Effect of movement in exchange rates	 	<u> </u>	1
Balance at December 31, 2020	\$ 9,000	1,904	10,904

	0:	thers
Deferred tax liabilities:		
Balance at January 1, 2021	\$	(50)
Recognized in profit or loss		37
Balance at December 31, 2021	\$	(13)
Balance at January 1, 2020	\$	(81)
Recognized in profit or loss		31
Balance at December 31, 2020	\$	<u>(50</u> )

#### (iv) Assessment of tax

The Company's tax returns for the years through 2019 were assessed by the tax authority. The tax returns for Adden Technology (SHENZHEN) Co., Ltd. and Adden Technology (HK) Co., Ltd. were declared to local tax authority for the years through 2020.

## (p) Capital and other equity

As of December 31, 2021 and 2020, the total value of authorized ordinary shares were both amounted to \$500,000 thousand with par value of \$10 per share and the contributed capital were amounted to \$429,370 thousand and \$429,385 thousand.

Reconciliation of shares outstanding for 2021 and 2020 was as follows:

(in thousand shares)

	Ordinary share		
	2021	2020	
Balance on January 1	42,939	42,576	
Execution of employee share options	(2)	-	
Retirement of restricted employee stock	<u> </u>	363	
Balance on December 31	42,937	42,939	

## (i) Ordinary share

In 2021, the Company had cancelled 2 thousand shares since the employee did not achieve the vesting conditions of restricted stock awards.

## (ii) Capital surplus

The balances of capital surplus as of December 31, 2021 and 2020, were as follows:

	Dec	cember 31, 2021	December 31, 2020
Share premium	\$	313,411	313,411
Employee share options		2,269	2,269
Restricted stock awards		65,060	62,656
	\$	380,740	378,336

At the general meeting of shareholders held on June 18, 2020, the Company approved a resolution to distribute \$25,545 thousand from capital surplus of share premium as cash dividend of \$0.6.

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

## (iii) Retained earnings

According to the Company's article of incorporation, the Company's annual net profit shall first pay taxes, offset accumulated deficits, and then allocate 10% thereof as legal reserve. However, where such legal reserve amounts reach to the total authorized capital, this provision shall not apply. In consideration of the operation needs and relative laws and regulations, the Company shall allocate special reserve. If there are remaining profits after paying share dividends, the profits shall be add with any accumulated unappropriated earnings form priors years, and the Board of Directors shall propose earning distribution plan for the resolution of the general meeting of shareholders.

The Company is in the stage of enterprise growth. The dividends will be, and will be distributed in the types of stock dividends or cash dividend, which will be determined moderately according to the future capital demand and equity dilution. The cash dividends shall not less than 10% of the total dividends in principle. However, the type and ratio of this surplus distribution shall depends on the actual profit and capital status of the year, and shall be approved by the resolution of the Shareholders' meeting.

### 1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

#### 2) Special reserve

In accordance with Ruling No. 1010012865 issued by the FSC on April 6, 2012, a portion of current-period earnings and undistributed prior-period earnings shall be reclassified as special earnings reserve during earnings distribution. The amount to be reclassified should equal the current-period total net reduction of other shareholders' equity. Similarly, a portion of undistributed prior-period earnings shall be reclassified as special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods. The amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions. As of December 31, 2021 and 2020, the balance of special earnings reserve were \$280,437 thousand and 223,776 thousand.

## 3) Earnings Distribution

Earnings distribution for 2020 and 2021 was decided by the resolution adopted, at the general meeting of shareholders held on August 26, 2021 and June 20, 2019, respectively.

The relevant dividend distributions to shareholders were as follow:

	202	20	201	19	
	Dividend per Share	Amount (thousand)	Dividend per Share	Amount (thousand)	
Dividends disrtibuted to common shareholders:					
Cash	\$ 12.00	515,262	12.20	519,421	
Shares	1.83	78,615	-		
Total		\$ <u>593,877</u>		519,421	

On March 23, 2022, the Company resolved to appropriate the 2021 earnings to its shareholders with the cash dividends amounting to \$11.30 dollar per share.

## (iv) Other equity (net of taxes)

	di tr	Exchange fferences on anslation of foreign financial statements	Unrealized gains (losses) from financial asset measured at fair value through other comprehensive income	Unearned employee compensation	Amount

Balance at December 31, 2020	\$	(105,263)	(175,175)	(56,193)	(336,631)

### (q) Share-based payment

The Board of Directors' meeting on 18 June 2020, the Group decided to award \$424 thousand new shares of restricted stock to those full-time employees whose performance assessment was excellent. The restricted stock has been registered with and approved by the Securities and Futures Bureau of the Financial Supervisory Commission, R.O.C. On September 17, 2020, 2016, the Board of Directors issued \$363 thousand stock. The capital increase date was on 15 October 2020.

Those employees with the restricted stock awards are entitled to obtain shares for free with the condition that these employees continue to provide service to the Company for at least 1 year (from the grant date). 50% of the restricted stock is vested in year 1 after the grant date, 25% of the restricted stock is vested in year 2 after the grant date, 15% of the restricted stock is vested in year 3 after the grant date, and the remaining 10% is vested in year 4 after the grant date.

The restricted stock is kept by a trust, which is appointed by the Company, before it is vested. These shares shall not be sold, pledged, transferred, gifted, or disposed of by any other means to third parties during the custody period, except for inheritance. The voting rights of these shareholders are executed by the custodian, and the custodian will act based on law and regulations. The rights of shares are the same as issued ordinary share, except for the above restrictions. If these employees who obtain the restricted stock awards violate Redulations Governing Issuance of Restricted Stock Awards, employment contract, confidential contract, trust contract, Ethical Corporate Management Best Practice Principles, Codes of Ethical Conduct, the Rules of Information Security, Work Rules, Employee Manual, and so on, the Company will repurchase all the unvested shares without charge, and cancel the shares thereafter.

As of December 31, 2021 and 2020, balances of employee unearned compensation were \$16,235 thousand and \$56,193 thousand, and the expense sprang from the restricted stock awards was \$42,347 thousand and \$10,093 thousand, respectively.

Details of the restricted stock of the Company are as follows:

	2021			2020	
Outstanding at 1 January	\$	363	-		
Granted during the year		-		363	
Vested during the year		(180)	-		
Forfeited during the year		(2)	-		
Outstanding at 31 December	\$	181		363	

### (r) Earnings per share

The calculation of basic earnings per share and diluted earnings per share for the year 2020 and 2019 are as follows:

### (i) Basic earnings per share

	_	2021	2020
Basic earnings per share			
Profit attributable to ordinary shareholders of the Company	<b>\$</b>	612,426	627,399
Weighted average number of ordinary shares (thousand shares)	! 	50,476	50,437
Basic earnings per share (NT dollars)	\$	12.13	12.44
(ii) Diluted earnings per share			
		2021	2020
Diluted earnings per share			_
Profit attributable to ordinary shareholders of the Company	\$	612,426	627,399
Weighted average number of ordinary shares (thousand shares)	-	50,476	50,437
Effect of dilutive potential ordinary shares			
Effect of employee share bonus		415	306
Effect of restricted employee shares unvested		199	8
Weighted average number of ordinary shares (diluted)	_	51,090	50,751
Diluted earnings per share (NT dollars)	\$	11.99	12.36

On August 26, 2021, the Board of Directors decided to issue shares dividends, with January 10, 2022, as the capital increase date. Since the capital increase date was between the reporting date and the date of the financial statements authorized for issue, the amount affected by the shares dividends should be retrospectively adjusted in accordance with IAS 33. The above-mentioned earnings per share have been adjusted retrospectively. The Group's basic earnings per share before retrospective adjustment for the years ended December 31, 2021 and 2020 were \$14.37 dollar and \$14.74 dollar, respectively; diluted earnings per share were \$14.17 dollar and \$14.63 dollar, respectively.

#### (s) Revenue from contracts with customers

### (i) Disaggregation of revenue

2021	2020	
\$ 1,618,270	1,487,428	
 66,316	52,347	
\$ 1,684,586	1,539,775	
\$ 1,299,153	1,210,205	
 385,433	329,570	
\$ 1,684,586	1,539,775	
\$	\$ 1,618,270 66,316 <b>\$ 1,684,586</b> \$ 1,299,153 385,433	

For the year ended December 31, 2021 and 2020, revenue from e-commerce was \$1,593,581 thousand and \$1,431,110 thousand, which were 95% and 93% of total revenue.

#### (ii) Contract balances

	December 31, 2021		December 31, 2020	January 1, 2018
Trade receivable	\$	111,463	100,947	112,289
Less: allowance for impairment		(20,998)	(24,598)	(24,598)
	\$	90,465	76,349	87,691
Contract liability-Internet service	\$	272,477	244,276	211,590
	\$	272,477	244,276	211,590

For details on trade receivable and allowance for impairment, please refer to note 6(d).

The amount of revenue recognized for the years ended December 31, 2021 and 2020, that were included in the contract liability balance at the beginning of the period were 244,276 thousand and 211,361 thousand, respectively.

### (t) Employee compensation and directors' and supervisors' remuneration

In accordance with the articles of incorporation, where the Company has earnings in a giving year, the Company shall allocate 1% or above of earnings as staff remunerations, 3% or below as Directors and Supervisors remunerations. However, if there is still accumulated loss of the Company, the Company shall reserve the compensation amount in advance.

The persons who are entitled to receive cash or shares as staff remuneration stipulated in the preceding paragraph including the employees of parents or subsidiaries of the Company meeting certain specific requirements.

For the years ended December 31, 2021 and 2020, the Company estimated its employee remuneration and directors' and supervisors' remuneration amounting as following:

	2021	2020
Employee compensation	\$ 48,670	54,500
Directors' and supervisors' remuneration	 7,020	7,560
	\$ 55,690	62,060

The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of remuneration to employees, directors and supervisors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2021 and 2020. The employee compensation which assign with share capital, the estimated amounts are calculated base on the day before decision to assign by board of directions.

The amounts, as stated in the consolidated financial statements, are identical to those of the actual distributions for 2021 and 2020. Related information would be available at the Market Observation Post System website.

### (u) Non-operatin income and expenses

### (i) Interest income

The details of interest income were as follows:

	2	2021	2020
Interest income from bank deposits	<b>\$</b>	3,144	4,008

## (ii) Other income

The details of other income were as follows:

	2021		2020	
Rent income	\$	12,051	5,351	
Dividend income		1,150	3,010	
Handling charge		13,123	10,802	
Other income, others		4,795	9,113	
	\$	31,119	28,276	

## (iii) Other gains and losses

The details of other gains and losses were as follows:

	 2021	2020
Losses on disposals of property, plant and equipment	\$ (10)	(51)
Gains on disposals of investments	-	608
Foreign exchange losses	(970)	(2,664)
Net loss on financial assets at fair value through profit or		
loss	(1,749)	(648)
Miscellaneous disbursements	 (35)	(1,334)
	\$ (2,764)	(4,089)

### (iv) Finance costs

The details of finance costs were as follows:

	2021		2020	
Interest expense	\$	845	166	

## (v) Reclassification adjustments of components of other comprehensive income

The details of reclassification adjustments of components of other comprehensive income were as follows:

	2	2021	2020
Debt instruments at fair value through other comprehensive income:			
Net change in fair value	\$	(939)	2,356
Net change in fair value reclassified to profit or loss			(608)
Net change in fair value recognized in other comprehensive income	\$	(939)	1,748

### (w) Financial instrument

## (i) Type of financial instrument

#### 1) Financial assets

	December 31, 2021	December 31, 2020
Financial assets at fair value through profit or loss:		
Financial assets designated as at fair value through profit or loss	\$	22,809
Financial assets at fair value through other comprehensive income	152,778	141,297
Amortized cost financial assets:		
Cash and cash equivalents	857,305	725,288
Note and trade receivables	90,465	76,349
Trade receivable due from related parties	37,184	55,591
Other financial assets	655,843	573,479
Subtotal	1,640,797	1,430,707
Total	\$1,814,497	1,594,813
2) Financial liabilities		
	December 31, 2021	December 31, 2020
Financial liabilities measured at amortized cost:		
Note and trade payables	\$ 216	3,600
Secured long-term borrowings	222,036	243,790
Receipts under custody	521,147	437,327
Secured long-term borrowings	128,925	
Total	\$ 872,324	684,717

## (ii) Credit risk

## 1) Credit risk exposure

The carrying amount of financial assets and contract assets represents the maximum amount exposed to credit risk.

### 2) Concentration of credit risk

As the Group has a large customer base and does not have a significant concentration of transactions with a single customer, the credit risk of accounts has no significant concentration.

### (iii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	В	ook value	Contractual cash flows	Within 6 months	6-12 month	1-2 year	2-5 year	Over 5 years
December 31, 2021								
Non-derivative financial liabilities								
Note and trade payables	\$	216	216	216	-	-	-	-
Other payables		222,036	222,036	222,036	-	-	-	-
Receipts under custody		521,147	521,147	521,147	-	-	-	-
Secured loan	_	128,925	139,167	5,122	5,105	10,131	29,814	88,995
	\$_	872,324	882,566	748,521	5,105	10,131	29,814	88,995
December 31, 2020	_							
Non-derivative financial liabilities								
Note and trade payables	\$	3,600	3,600	3,600	-	-	-	-
Other payables		243,790	243,790	243,790	-	-	-	-
Receipts under custody	_	437,327	437,327	437,327				
	\$_	684,717	684,717	684,717				

### (iv) Currency risk

### 1) Exposure to foreign currency risk

The Group's financial assets and liabilities were not had significant risk expose in foreign currency

### (v) Interest rate analysis

The Group's financial asset and liabilities did not face risk exposure to interest rate, please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial assets and liabilities.

### (vi) Other market price risk

		2021		2020		
Price of securities at the reporting date	Otl compre income a	hensive	Other comprehensive income after ta		Net income	
Increasing 1%	\$	1,389		1,263		
Decreasing 1%	\$	(1,389)		(1,263)		

### (vii) Information of fair value

### 1) Fair value of financial instrument

The fair value of financial assets at fair value through other comprehensive income is measured on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

	December 31, 2021						
	Fair value						
	Bo	ok Value	Level 1	Level 2	Level 3	Total	
Financial assets at fair value through profit or loss bonds investments	\$	20,922	20,922	_	_	20,922

Total	<b>\$</b> _	164,106	37,774	14,417	111,915	164,106	

### 2) Valuation techniques for financial instruments measured at fair value

### a) Non-derirative financial instruments

If a financial instrument has a quoted price in an active market, the quoted price is used as fair value. The quoted price of a financial instrument obtained from major exchanges and over-the counter markets are the basis used to determine the fair value of a listed company's stock and the quoted prices in an active market.

In addition, the fair value of a private equity instrument is measured by its market value, taking its non-active-market liquidity discount into consideration by adjusting its market value using its put option. The main assumption is that when an investor hold such a restricted equity instrument, the investor can buy a put option, with the strike price equivalent to the market value of such restricted equity instrument, to ensure that the investor can still sell its instrument at current market price after termination of restricted trading period. Therefore, the value of its put option, which is measured by using the Black-Scholes model, stands for the cost that the investor is willing to pay in order to ensure the liquidity of equity security market.

The Group uses the following methods in determining the fair value of its financial instruments without a quoted price in an active market:

Financial assets at FVOCI- non-current are investments in non-listed stock. The fair value is based on the market approach of comparable business. For non-listed stock, the price is based on the estimated earnings before interest, taxes, depreciation, and amortization of investee and the quoted price in an active market of comparable companies. The estimated fair value is adjusted for the lack of liquidity.

### 3) Reconciliation of Level 3 fair values

	other comprehensive in		
		<b>quoted equity instruments</b>	
Opening balance, January 1, 2021	\$	111,915	
Total gains and losses recognized			
In profit or loss		-	
In other comprehensive income		11,264	
Cash refund capital reduction		(2,178)	
Ending Balance, December 31, 2021	<u>\$</u>	121,001	
Opening balance, January 1, 2020	\$	202,267	
Total gains and losses recognized			
In profit or loss		-	
In other comprehensive income		(14,721)	
Disposal		(103,631)	
Purchase		30,000	
Cash refund capital reduction		(2,000)	
Ending Balance, December 31, 2020	\$	111,915	

Fair value through

For the years ended December 31, 2021 and 2020, total gains and losses that were included in "other gains and losses" and "unrealized gains and losses from financial assets at fair value through other comprehensive income" were as follows:

	2021		2020	
Total gains and losses recognized				
In other comprehensive income, and presented	\$	11,264	(14,721)	
in "unrealized gains and losses from financial				
assets at fair value through other				
comprehensive income"				

4) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include "financial assets measured at fair value through other comprehensive income – equity security investments".

Most of fair value that use Level 3 have single significant unobservable inputs, only measurements of fair value of equity instruments without an active market had several significant unobservable inputs. Due to independence of significant unobservable inputs in equity instruments without an active market, there were no exist correlation between each other.

Quantified information of significant unobservable inputs was as follows:

Item	Valuation technique	Significant unobservable inputs	between significant unobservable inputs and fair value measurement
Financial assets at fair value through other comprehensive income-equity	Comparable company analysis	P/B ratio (2.08~7.58 and 1.40~5.48 on December 31, 2021 and 2020, respectively)	The estimated fair value would increase (decrease) if:  • The P/B ratio were higher (lower);
investments without an active market		· Lack-of-marketability discount rate (27.96% and 30.00% respectively, on December 31, 2021 and 2020)	· Lack-of- Marketability discount were lower (higher).

Inter-relationship

Item	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Financial assets at fair value through other comprehensive income-equity investments without an active market	Binomial options pricing model	· Volatility (31.97%~37.11% on December 31, 2021 and 2020, respectively) · Equity Value (1.73~10.64 and 5.84~10.73 on December 31, 2021 and 2020,	The estimated fair value would increase (decrease) if:  • The volatility were lower (higher);  • The equity value were higher (lower).
Financial assets at fair value through other comprehensive income-equity investments without an active market	Net asset valuation method	respectively)  Net asset valuation	Not applicable

5) Fair value measurements in Level 3– sensitivity analysis of reasonably possible alternative assumptions

For fair value measurements in Level 3, changing one or more of the assumptions to reflect reasonably possible alternative assumptions would have the following effects:

			Pofit	or loss	Other comprehensive income	
	Inputs	Variation	Favourable	Unfavourable	Favourable	Unfavourable
December 31, 2021						
Financial assets fair value through other comprehensive income						
Investment in equity instrument without active market	P/B ratio	5%	-	-	1,064	(1,064)
	Lack-of- Market ability discount	1%	-	-	91	(91)
	Volatility	1%	-	-	386	(410)
	Equity value	5%	-	-	704	(724)
December 31, 2020						
Financial assets fair value through other comprehensive income						
Investment in equity instrument without active market	P/B ratio	5%	-	-	1,639	(1,640)
	Lack-of- Market ability discountratio	5%	-	-	463	(463)
	Volatility	1%	-	-	640	(606)
	Equity value	5%	-	-	1,266	(1,256)

(Continued)

### (x) Financial risk management

### (i) Overview

The Group have exposures to the following risks from its financial instruments:

- 1) credit risk
- 2) liquidity risk
- 3) market risk

The following likewise discusses the Group's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying consolidated financial statements.

### (ii) Structure of risk management

The Board of Directors has responsibility for the establishment and oversight of the risk management framework. Internal Audit is responsible for identifying and analyzing the risk faced by the Group. The heads of departments set appropriate risk limits and controls, and to monitor risks and adherence to limits. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The supervisors and independent directors oversee how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The supervisors and independent directors are assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the supervisors and independent directors.

### (iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities.

### 1) Trade and other receivable

The Group's expose of risk are affect by the individual status of each client. The management also considerate the statistics of the client basic data, including default risk of industry and country, these factor might affect credit risk.

The Group has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, when available, and, in some cases, bank references. Purchase limits are established for each customer and represent the maximum open amount without requiring approval these limits are reviewed quarterly. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

### 2) Investments

The exposure to credit risk for the bank deposits, fixed income investments, and other financial instruments is measured and monitored by the Group's finance department. The Group only deals with banks, other external parties, corporate organizations, government agencies and financial institutions with good credit rating. The Group does not expect any counterparty above fails to meet its obligations hence there is no significant credit risk arising from these counterparties.

### (iv) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it always has sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

#### (v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, and equity prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

### 1) Currency risk

The Group is exposed to currency risk on sales, purchases, that are denominated in a currency other than the respective functional currencies of the Group's entities, primarily the New Taiwan Dollar (NTD), Hong Kong Dollar (HKD), and Chinese Yuan (CNY). The currencies used in these transactions are the NTD, USD, HKD, and CNY.

### 2) Other market price risk

The financial assets at fair value through other comprehensive income held by the Group are invested in stocks in domestic listed company and stocks in unlisted company. Because those are measured at fair value, the Group exposed to changes in the equity price. To manage market risk, the Group need to choose investment targets carefully and control the positions the Group held.

### (y) Capital management

The Group's objectives for managing capital to safeguard the capacity to continue to operate, to continue to provide a return on shareholders, to maintain the interest of other related parties, and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the dividend payment to the shareholders, reduce the capital for redistribution to shareholders, issue new shares, or sell assets to settle any liabilities.

The Group and other entities in the same industry use the debt-to-equity ratio to manage capital. This ratio is the total net debt divided by the total capital. The net debt from the balance sheet is derived from the total liabilities less cash and cash equivalents. The total capital and equity include share capital, capital surplus, retained earnings, and other equity.

The Group's debt-to-equity ratio at the end of the reporting period as of December 31, 2021 and 2020 were as follows:

	December 31,		December 31,	
		2021	2020	
Total liabilities	\$	1,294,005	1,066,556	
Less: cash and cash equivalents	_	857,305	725,288	
Net debt	\$	436,700	341,268	
Total equity	\$	1,981,049	1,831,105	
Debt-to-equity ratio at December 31		22.04%	18.64%	

### (z) Investing and financing activities not affecting current cash flow

The Group's investing and financing activities which did not affect the current cash flow to acquire right-of-use assets in the years ended December 31, 2021 and 2020.

Reconciliation of liabilities arising from financing activities were as follows:

					Non-cash	changes		
Long town howeving		nuary 1, 2020	Cash flows	Acquisition	Foreign exchange movement	Fair value changes	Others	December 31, 2021
Long-term borrowing (including expires within one year)	\$	-	128,925	-	-	-	-	128,925

### (iii) Significant transactions:

The significant inter-company transactions with the subsidiary in Mainland China, which were eliminated in the preparation of consolidated financial statements, are disclosed in note 13(a) "Information on significant transactions" and "Business relationships and significant intercompany transactions"

### (d) Major shareholders:

Shareholding Shareholder's Name	Shares	Percentage
SHENG CHEND Investment Co., Ltd.	3,887,739	9.05 %
QIAN YI Investment Co., Ltd.	3,849,767	8.96 %
LIAO-SHI-FANG	3,537,142	8.23 %
JPMorgan Chase Bank, National Association Taipei branch mutual fund investment account	3,437,000	8.00 %
Cheng Yu Investment Co., Ltd.	2,254,024	5.24 %

Note: (1)The information on major shareholders in this table is calculated by Taiwan Depository & Clearing Corporation on the last business day at the end of each quarter, showing who holds more than 5% of the common shares and preferred shares that have been delivered (including treasury shares) without physical registration. Due to different calculation bases, there may be differences between the share capital recorded in the company's financial report and the actual number.

(2)If the above-mentioned information is that the shareholders hand over the shares to the trust, it will be disclosed by the special account opened by the trustee. As for the insider equity declaration of shareholders holding more than 10%, according to the Securities and Exchange Act, their shareholding includes the shares held by themselves plus the shares that they have delivered to the trust, having the right to exercise decision-making power over the trust property, etc., please refer to Public Information Observatory for the information on the declaration of insider equity.

### (14) Segment information:

### (a) Internet service department

Internet service departments have been aggregated into a single operating segment as they have similar economic characteristics and use similar mode to provide service. For the year ended December 31, 2021 and 2020, the Group's segment financial information was the same as that in the consolidated financial statements.

### (b) Geographic information

Geographic information	2021	2020
Revenue from external customers:		
Taiwan	\$ 1,618,2	1,487,428
Other countries	66,3	52,347
Total	\$ <u>1,684,5</u>	1,539,775

### **Independent Auditors' Report**

To the Board of Directors of Adden Technology Co., Ltd.:

### **Opinion**

We have audited the financial statements of Adden Technology Co., Ltd. ("the Company"), which comprise the balance sheet as of December 31, 2021 and 2020, the statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

### **Basis for Opinion**

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming in our opinion thereon, and we do not provide a separate opinion on these matters.

### 1. Revenue recognition

Please refer to note 4(n) for the accounting policy of revenue and note 6(t) for composition of revenue.

Description of key audit matter:

Sales Revenue of the Company is mainly generated from operating online platforms. The way of revenue recognition varies by different types of transactions and its economic substances. Also, there is a large volume of transactions through the online platforms day-by-day with system-controlled trading information and procedures.

Therefore, transaction information and the timing of revenue recognition is an important issue in our audit of the consolidated financial statements.

How the matter was addressed with our audit:

Our principal audit procedures included: understanding trading models of each online platform and its principal system-based application control and manual control, including involving IRM specialist in testing the general information technology environment and related application control of their main transaction processes; obtaining the monthly income statement generated by the system of online platforms, assessing whether the system processes transaction information appropriately, and inspecting some samples of accounting vouchers to see if they agree with the monthly income statement generated by the system.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including supervisors) are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the investment in other entities accounted for using the equity method to express an opinion on this financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Cheng-Chien Chen and Yung-Hua Huang.

### **KPMG**

Taipei, Taiwan (Republic of China) March 30, 2022

### **Notes to Readers**

The accompanying parent company only financial statements are intended only to present the financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such parent company only financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' audit report and the accompanying parent company only financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' audit report and parent company only financial statements, the Chinese version shall prevail.

Cash and cash equivalents at end of period \$	654,664	514,741

### **Notes to the Financial Statements**

### For the years ended December 31, 2021 and 2020

### (Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

### (1) Company history

Adden Technology Co., Ltd. (the "Company") was incorporated in January 23, 2007 as a company limited by shares and registered under the Ministry of Economic Affairs, ROC. The Company was registered in 10F, No.12, Lane 609, Sec 5, Chungshin Rd., Sanchung Dist., New Taipei City. The major business activities of the Company are online trade platform operation and services. The Company's common shares were listed on the Taipei Exchange (TPEx) since January 20, 2014.

### (2) Approval date and procedures of the financial statements

These financial statements were authorized for issue by the Board of Directors on March 23, 2021.

### (3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2021:

- Amendments to IFRS 4 "Extension of the Temporary Exemption from Applying IFRS 9"
- Amendments to IFRS 9, IAS39, IFRS7, IFRS 4 and IFRS 16 "Interest Rate Benchmark Reform—Phase 2"

The Company has initially adopted the following new amendments, which do not have a significant impact on its financial statements, from April 1, 2021:

- Amendments to IFRS 16 "Covid-19-Related Rent Concessions beyond June 30, 2021"
- (b) The impact of IFRS issued by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2022, would not have a significant impact on its financial statements:

- Amendments to IAS 16 "Property, Plant and Equipment Proceeds before Intended Use"
- Amendments to IAS 37 "Onerous Contracts—Cost of Fulfilling a Contract"
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 "Reference to the Conceptual Framework"

### (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Company, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"	The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of balance sheet, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments include clarifying the classification requirements for debt a company might settle by converting it into equity.	January 1, 2023
Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"	The amendments narrowed the scope of the recognition exemption so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.	January 1, 2023

The Company is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and financial performance. The results thereof will be disclosed when the Company completes its evaluation.

The Company does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17 "Insurance Contracts"
- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"

### (4) Summary of significant accounting policies:

The significant accounting policies presented in the financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the financial statements.

### (a) Statement of compliance

These financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations").

### (b) Basis of preparation

### (i) Basis of measurement

The financial statements have been prepared on a historical cost basis, except fair value through other comprehensive income are measured at fair value.

- 1) Financial instruments measured at fair value through profit or loss are measured at fair value;
- 2) Fair value through other comprehensive income (Available-for-sale financial assets) are measured at fair value.

### (ii) Functional and presentation currency

The functional currency of each Company Entity is determined based on the primary economic environment in which the entity operates. The financial statements are presented in New Taiwan dollars (NTD), which is the Company's functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

### (c) Foreign currencies

### (i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Company entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Nonmonetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- an investment in equity securities designated as at fair value through other comprehensive income;
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- qualifying cash flow hedges to the extent that the hedges are effective.

### (ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Company disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to noncontrolling interests. When the Company disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

### (d) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

### (e) Cash and cash equivalents

Cash comprises cash on hand and demand deposits cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

#### (f) Financial Instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

### (i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

### 1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

### 2) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Company's right to receive payment is established.

### 3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. Trade receivables that the Group intends to sell immediately or in the near term are measured at FVTPL; however, they are included in the 'trade receivables' line item. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

### 4) Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, and are consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

5) Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial assets on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features)

### 6) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivable, guarantee deposit paid and other financial assets), debt investments measured at FVOCI and contract assets.

The Company measures loss allowances at an amount equal to lifetime ECL, expected credit loss (ECL), except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company's historical experience and informed credit assessment as well as forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 1 days past due.

The Company considers a financial asset to be in default when the financial asset is more than 60 days past due or the debtor is unlikely to pay its credit obligations to the Company in full.

The Company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings'.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECL is the maximum contractual period over which the Company is exposed to credit risk.

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial assets is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 60 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charge to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is 2 years past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

### 7) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

### (ii) Financial liabilities and equity instruments

### 1) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### 2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

### 3) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

### 4) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

### 5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

### (g) Investment in associates

Associates are those entities in which the Company has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The financial statements include the Company's share of the profit or loss and other comprehensive income of those associates, after adjustments to align their accounting policies with those of the Company, from the date on which significant influence commences until the date on which significant influence ceases. The Company recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual proportionate share.

Gains and losses resulting from transactions between the Company and an associate are recognized only to the extent of unrelated Company's interests in the associate. When the Company's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

When the Company subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Company's proportionate interest in the net assets of the associate. The Company records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. The aforesaid adjustment should first be adjusted under capital surplus. If the capital surplus resulting from changes in ownership interest is not sufficient, the remaining difference is debited to retained earnings. If the Company's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate will be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

### (h) Subsidiaries

The subsidiaries in which the Company holds controlling interest are accounted for under equity method in the financial statements. Under equity method, the net income, other comprehensive income and equity in the financial statements are the same as those attributed to the owners of parent in the consolidated financial statements.

The changes in ownership of the subsidiaries that do not result in the loss of control are recognized as equity transaction.

### (i) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services, or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. Depreciation expense is calculated based on the depreciation method, useful life, and residual value which are the same as those adopted for property, plant and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

# (j) Property, plant and equipment

### (i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

#### (ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

# (iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straightline basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) Buildings 50 years

2) Office equipment 1~5 years

3) Lease improvements 1~5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (iv) Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the use of the property changes from owner-occupied to investment property.

#### (k) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

#### (i) As a leasee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- 1) fixed payments, including in-substance fix payments;
- 2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- 3) amounts expected to be payable under a residual value guarantee; and
- 4) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- 1) there is a change in future lease payments arising from the change in an index or rate; or
- 2) there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or

- 3) there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- 4) there is a change of its assessment on whether it will exercise a purchase, extension or termination option; or
- 5) there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

If an arrangement contains lease and non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases of printer and a part of office that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

### (ii) As a leasor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies IFRS15 to allocate the consideration in the contract.

### (1) Intangible assets

#### (i) Recognition and measurement

Goodwill arising on the acquisition of subsidiaries is measured at cost, less accumulated impairment losses.

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets, including customer relationships, patents and trademarks, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

### (ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

#### (iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

1) Trademarks and patents  $6\sim10$  years

2) Computer software 2~5 years

3) Customer relationships and databases 10 years

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (m) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

#### (n) Revenue

#### (i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below.

#### 1) Online advertising platform services

The Company provides advertising services to customers. Revenue from providing services is recognized in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. The proportion of services provided is determined based on the actual advertising hours spent relative to the total expected advertising hours.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the services rendered by the Company exceed the payment, a contract asset is recognized. If the payments exceed the services rendered, a contract liability is recognized.

#### 2) Commission

The Company only acts as a platform provider when it provides online trading platform services. Commission is received by a fixed proportion of transaction price when the buyer and seller confirm that the transaction is finished.

# 3) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

#### (ii) Contract costs

#### 1) Incremental costs of obtaining a contract

The Company recognizes as an asset the incremental costs of obtaining a contract with a customer if the Company expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Company incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Company applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

### 2) Costs to fulfil a contract

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (for example, IAS 2 Inventories, IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets), the Company recognizes an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria:

- the costs relate directly to a contract or to an anticipated contract that the Company can specifically identify;
- the costs generate or enhance resources of the Company that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- the costs are expected to be recovered.

General and administrative costs, costs of wasted materials, labor or other resources to fulfil the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Company cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations(or partially satisfied performance obligations), the Company recognizes these costs as expenses when incurred.

### (o) Employee benefits

#### (i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

#### (ii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

### (p) Share-based payment

The grant-date fair value of equity-settled share-based payment awards granted to employees is recognized as employee expenses, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards whose related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

For share based payment awards with non-vesting conditions, the grant-date fair value of the share based payment is measured to reflect such conditions, and there is no true up for differences between expected and actual outcomes.

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognized as an expense, with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the share appreciation rights. Any changes in the liability are recognized in profit or loss.

Grant date of a share-based payment award is the date which the board of directors decide the date of capital increase.

#### (q) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS37.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Group has a legally enforceable right to set off currenttax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
- 1) the same taxable entity; or
- 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

### (r) Earnings per share

The Company discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as employee stock options.

### (s) Operating segments

The Company discloses its segment information in the consolidated financial statements. Therefore, the Company need not disclose segment information in the parent-company-only financial statements.

# (5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

The preparation of the financial statements in conformity with the Regulations requires management to make judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the parent company only financial statements is as follows:

# (a) Judgment of whether the Company has substantive control over its investees.

The Company holds 30.29% of the outstanding voting shares of Digit Marketing Co., Ltd. and is the single largest shareholder of the investee. Although the remaining 69.71% of Digit Marketing Co., Ltd.'s shares are not concentrated within specific shareholders, the Company still cannot obtain more than half of the total number of Digit Marketing Co., Ltd.'s directors, and it also cannot obtain more than half of the voting rights at a shareholders' meeting. Therefore, it is determined that the Company has significant influence on Digit Marketing Co., Ltd..

For the assumptions and estimation uncertainties, there were no significant risk resulting in a material adjustment within the next financial year.

The Company's accounting policies includes measuring financial and non-financial assets and liabilities at fair value through profit or loss. The Company's financial instrument valuation group conducts independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This financial instrument valuation group also periodically adjusts valuation models, conducts back testing, renews input data for valuation models, and makes all other necessary fair value adjustments to assure the rationality of fair value.

The Company strives to use market observable inputs when measuring assets and liabilities. Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

- (a) Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- (b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie as prices) or indirectly (ie derived from prices).
- (c) Level 3: inputs for the assets or liability that are not based on observable market data.

Please refer to note 6(x) for assumptions used in measuring fair value.

### (6) Explanation of significant accounts:

(a) Cash and cash equivalents

	Dec	ember 31, 2021	December 31, 2020
Cash	\$	50	50
Demand deposits and check deposits		654,614	514,691
Cash and cash equivalents in the statement of cash flows	\$	654,664	514,741

Please refer to note 6(x) for the interest rate risk, and sensitivity analysis of the financial assets and liabilities of the Company.

(b) Financial assets at fair value through profit or loss

	Dec	ember 31, 2021	December 31, 2020
Related to financial assets at fair value through profit or loss:			
Corporate bonds - Credit Suisse Group AG	\$	6,152	6,296
Corporate bonds –Apple Inc.		14,770	16,513
Total	\$	20,922	22,809

### (c) Financial assets at fair value through other comprehensive income

	Dec	ember 31, 2021	December 31, 2020
Debt investments at fair value through other comprehensive income:			
UPAMC China High Yield Bond Fund	\$	13,913	14,965
Others		-	
Equity investments at fair value through other comprehensive income:			
Stocks listed on domestic markets		17,864	14,417
Stocks unlisted on demestic markets		121,001	111,915
Subtotal		138,865	126,332
Total	\$	152,778	141,297

## (i) Debt investments at fair value through other comprehensive income

The Company has assessed that the following securities are held within a business model whose objective is achieved by both collecting the contractual cash flows and by selling securities; therefore, they have been classified as debt investments at fair value through other comprehensive income.

On December 12, 2020, the Company has sold its investments as a result of the Company's investment strategy. The investment sold had a fair value of \$17,838 thousand wherein the Company realized a gain of \$608 thousand, which has been reclassified from other equity to profit or loss.

### (ii) Equity investments at fair value through other comprehensive income

The Company designated the investments shown above as equity securities as at fair value through other comprehensive income because these equity securities represent those investments that the Company intends to hold for long-term strategic purposes.

During the years ended December 31, 2021 and 2020, the dividends of \$1,150 thousand and \$3,010 thousand, respectively, related to equity investments at fair value through other comprehensive income held on the years then ended, were recognized.

On June, 2021, the amounts received from the capital reduction by Element I Venture Capital Co., Ltd. were \$2,178 thousand and \$2,000 thousand.

- (iii) For credit risk (including the impairment of debt investments) and market risk; please refer to note 6(x).
- (iv) None of the financial assets above are pledged as collateral for long-term borrowings.

(d) Notes and trade receivables

	Dece	ember 31, 2021	December 31, 2020
Notes receivables	\$	-	1,045
Trade receivables		106,637	94,855
Less: Loss allowance		(20,998)	(24,598)
	\$	85,639	71,302

(i) The Company applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The loss allowance provision were determined as follows:

	<b>December 31, 2021</b>			
		ss carrying amount	average loss rate	Loss allowance provision
Current	\$	85,642	0%	3
1 to 60 days past due		-	10%~20%	-
More than 60 days past due		20,995	20%~100%	20,995
Total	\$	106,637		20,998
		D	ecember 31, 202	0
			Weighted-	
	Gro	ss carrying	average loss	Loss allowance
		amount	rate	provision
Current	\$	74,905	0%	3,603
More than 60 days past due		20,995	30%~100%	20,995
Total	\$	95,900		24,598

(ii) The movement in the allowance for notes and trade receivables were as follows:

	For the years ended December 31			
		2021	2020	
Balance at January 1	\$	24,598	24,598	
Amounts reversed due to recovery		(3,600)		
Balance at December 31	\$	20,998	24,598	

(iii) The aforementioned notes and trade receivable of the Company had not been pledged as collateral for long-term borrowings.

## (e) Investments accounted for using equity method

The details of the investments accounted for using equity method were as follows:

	D	ecember 31, 2021	December 31, 2020
Subsidiaries	\$	834,033	825,497
Associates	_	63,690	49,714
	<u>\$</u>	897,723	875,211

### (i) Subsidiaries

For the related information, please refer to the consolidated financial statements for the year ended December 31, 2021.

#### (ii) Associates

The Company's financial information for investments accounted for using the equity method that are individually insignificant was as follows:

	De	cember 31, 2021	December 31, 2020
Carrying amount of individually insignificant associates' equity	\$	63,690	49,714

In 2021 and 2020, the Company's share of the net income of associate was as follows:

	 2021	2020
Attributable to the Company:		
Profit from continuing operations	\$ 26,259	29,206
Other comprehensive income	 _	
Comprehensive income	\$ 26,259	29,206

The Company does not have any contingent liabilities arising from associate with other investor or for individual responsibility.

There is no significant restrictions to transfer financial resource from associate to the Company.

# (f) Property, plant and equipment

The cost, depreciation, and impairment of the property, plant and equipment of the Company for the years ended December 31, 2021 and 2020, were as follows:

		Land	Buildings and constructions	Office equipment	Leasehold improvements	Construction in progress	Total
Cost or deemed cost:							
Balance at January 1, 2021	\$	172,284	158,169	82,509	15,780	-	428,742
Additions		73,935	27,661	5,626	-	-	107,222
Reclassification		36,486	20,890	-	-	-	57,376
Disposals	_			(1,794)			(1,794)
Balance at December 31, 2021	\$_	282,705	206,720	86,341	15,780		591,546
Balance at January 1, 2020	\$	172,284	142,641	77,201	15,780	12,500	420,406
Additions		-	3,623	5,720	-	-	9,343
Reclassification		-	11,905	-	-	(12,500)	(595)
Disposals	_	-		(412)			(412)

Balance at December 31, 2020	\$	58,000	10,049	22,203	1,830	92,082
Balance at January 1, 2020	\$	58,000	12,729	28,124	1,883	100,736

#### (i) Amortization expense

The amortization of intangible assets is included in the statement of comprehensive income:

	 2021	2020
Operating expenses	\$ 9,367	9,334

# (ii) Impairment test of goodwill

Goodwill arising from the acquisition of 518 Technology Co., Ltd. on January 1, 2015, valued at \$58,000 thousand, was mainly attributable to the expected benefit derived from the operating revenue growth of 518 Human Resource. According to IAS 36, goodwill acquired in a business combination is tested for impairment at least annually. For the purposes of impairment testing, goodwill is allocated to each of the acquirer's cash-generating units that are expected to benefit from the synergies of the combination. Job searching websites were a group of cash-generating units that can generate independent cash inflows; therefore, goodwill is tested for impairment by comparing the recoverable amount of job searching websites with their carrying amount to determine whether an impairment loss should be recognized.

Base on the result of impairment test, the recoverable amount of job searching websites was greater than their carrying amount; thus, no impairment loss was recognized.

The recoverable amount of job searching websites was based on their value-in-use, determined by discounting the future cash flows to be generated from the continuing use of job searching websites. The key assumptions used in the estimation of value-in-use were as follows:

	December 31,	December 31,
	2021	2020
Discount rate	7.70 %	9.39 %

The discount rate was a pre-tax measure based on the capital asset pricing model, adjusted for a risk premium to reflect both the increased risk of investing in equities generally and the systemic risk of the specific CGU.

#### (iii) Guarantee

As of December 31, 2021 and 2020, the intangible asset of the Company had not been pledged as collateral for long-term borrowings.

#### (i) Other financial assets

Other financial assets of the Company were as follows:

	De	2021	December 31, 2020
Time deposit due within one year	\$	104,590	104,590
Other receivables		470	554
Current restricted assets		548,312	466,078
	\$	653,372	571,222

Current restricted assets mainly consist of time deposits pledged as collateral and receipts under custody from transaction between members on 8591 Virtual Treasure Trade. Please refer to note 8 for the information of pledged assets.

#### (k) Other current assets and other non-current assets

Other current assets and other non-current assets were as follows:

	December 31, 2021	December 31, 2020	
Current prepaid expense	\$ 8,931	4,976	
Current temporary payments	12,971	6,833	
Subtotal	21,902	11,809	
Non-current prepaid expense	-	10,150	
Guarantee deposits paid	638	638	
Right-of-use asset	6,408	8,947	
Subtotal	7,046	19,735	
Total	\$28,948	31,544	

### (i) Current prepaid expense

Current prepaid expense mainly consist of system outsourcing usage fee, domain service fee, rent and insurance.

#### (ii) Current temporary payments

Temporary payments consist of website event bonus payment on 8591 Virtual Treasure Trade and others.

### (iii)Non-current prepaid expense

Non-current prepaid expense mainly consist of down payment on office space.

### (1) Other payables and Receipts under custody

Other payables and Receipts under custody were as follows:

	De	cember 31, 2021	December 31, 2020	
Current tax liabilities	\$	76,292	74,178	
Employee compensation payable		48,748	54,552	
Compensation due to directors and supervisors		7,020	7,560	
Wages and salaries payable		26,352	22,466	
Expenses payable		39,187	53,060	
Other		1,573	2,589	
Subtotal		199,172	214,405	
Receipts under custody		517,254	429,414	
Total	\$	716,426	643,819	

Receipts under custody are collection on behalf of others which are not completed from member transaction on 8591 Virtual Treasure Trade. The collection is deposited in individual trust accounts of E. Sun Bank.

### (m) Long-term borrowing

The long-term notes and bills payable were summarized as follows:

	Dec	cember 31, 2021
Secured loan	\$	128,925
Less: Discount on short-term notes and bills payable		(8,868)
Total	\$	120,057
Unused credit lines	\$	3,980
Range of interest rates	1.0	0%~1.20%

For the collateral for long-term borrowings, please refer to note8.

The Company has no long-term borrowings on December 31, 2020.

## (n) Operating lease

#### (i) Leases as lessor

The Company leases out its investment property. The Company has classified these leases as operating leases, because it does not transfer substantially all of the risks and rewards incidental to the ownership of the assets. Please refer to note 6(h) sets out information about the operating leases of investment property.

A maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date are as follows:

	mber 31, 2021	December 31, 2020
Less than one year	\$ 2,800	935
Between one and five years	 3,701	
Total undiscounted lease payment	\$ 6,501	935

Rental income from investment property was \$3,274 thousand and \$3,137 thousand for the years ended December 31, 2021 and 2020, respectively.

### (o) Employee benefits

The Company allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Company allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The pension costs amounted to \$5,837 thousand and \$5,121 thousand for the years ended December 31, 2021 and 2020, respectively.

#### (p) Income tax

Income tax expense

The components of income tax in the years ended December 31, 2021 and 2020 were as follows:

	 2021	2020
Current tax expense		
Current period	\$ 149,005	145,416
Adjustment for prior periods	 	1,813
	 149,005	147,229
Deferred tax expense		
Origination and reversal of temporary differences	 3,755	4,311
Tax expense	\$ 152,760	151,540

For the years ended December 31, 2021 and 2019, there was no income tax recognized in equity or other comprehensive income.

Reconciliation of income tax and profit before tax for 2021 and 2020 were as follows:

	2021	2020
Profit excluding income tax	\$ 765,186	778,939
Income tax using the company's domestic tax rate	153,037	155,787
Non-deductible expense	350	130
Tax-exempt income	(5,482)	(6,443)
Tax incentives	(153)	-
Change in unrecognized temporary differences	2,234	253
Change in provision in prior periods	-	1,813
Additional tax on undistributed earnings	 2,774	
	\$ 152,760	151,540

### (i) Deferred tax assets and liabilities

1) Unrecognized deferred tax liabilities

	December 31,		December 31,	
		2021	2020	
Unrecognized deferred tax liabilities	\$	8,345	6,028	

# 2) Unrecognized deferred tax assets

Deferred tax assets have not been recognized in respect of the following items:

	December 31, 1 2021		December 31, 2020
Tax effect of deductible temporary differences	\$	15,523	13,289

# 3) Recognized deferred tax assets and liabilities

Change in the amount of deferred tax assets and liabilities for 2021 and 2020 were as follows:

	ir	Loss on ivestment	Others	Total
Deferred tax assets:				
Balance at January 1, 2021	\$	9,000	1,155	10,155
Recognized in profit or loss		(3,000)	(792)	(3,792)
Balance at December 31, 2021	\$	6,000	363	6,363
Balance at January 1, 2020	\$	12,000	2,497	14,497
Recognized in profit or loss		(3,000)	(1,342)	(4,342)
Balance at December 31, 2020	\$	9,000	1,155	10,155

	0	thers
Deferred tax liabilities:		_
Balance at January 1, 2021	\$	(50)
Recognized in profit or loss		37
Balance at December 31, 2021	\$	(13)
Balance at January 1, 2020	\$	(81)
Recognized in profit or loss		31
Balance at December 31, 2020	\$	(50)

#### (ii) Assessment of tax

The Company's tax returns for the years through 2019 were assessed by the tax authority.

### (q) Capital and other equity

As of December 31, 2021 and 2020, the total value of authorized ordinary shares were 1,000,000 thousand and \$500,000 thousand with par value of \$10 per share, and the contributed capital were amounted to \$429,370 thousand and \$429,385 thousand, respectively.

Reconciliation of shares outstanding for 2021 and 2020 were as follows:

(in thousand shares)

	Ordinary share		
	2021	2020	
Balance on January 1	42,939	42,576	
Retirement of restricted employee stock	(2)	-	
Issuance of restricted employee stock		363	
Balance on December 31	42,937	42,939	

# (i) Ordinary share

In 2020, the Company cancelled 2 thousand shares since the employees did not achieve the vesting conditions of restricted employee stock.

# (ii) Capital surplus

The balances of capital surplus as of 2021 and 2019, were as follows:

	Dec	December 31, 2020	
Share premium	\$	313,411	313,411
Employee share options		2,269	2,269
Restricted employee stock		65,060	62,656
	\$	380,740	378,336

At the general meeting of shareholders held on June 18, 2020, the Company approved a resolution to distribute \$25,545 thousand from capital surplus of share premium as cash dividend of \$0.6 per share.

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

### (iii) Retained earnings

According to the Company's article of incorporation, the Company's annual net profit shall first pay taxes, offset accumulated deficits, and then allocate 10% thereof as legal reserve. However, where such legal reserve amounts reach to the total authorized capital, this provision shall not apply. In consideration of the operation needs and relative laws and regulations, the Company shall allocate special reserve. If there are remaining profits after paying share dividends, the profits shall be add with any accumulated unappropriated earnings form priors years, and the Board of Directors shall propose earning distribution plan for the resolution of the general meeting of shareholders.

The Company is in the stage of enterprise growth. The dividends will be, and will be distributed in the types of stock dividends or cash dividend, which will be determined moderately according to the future capital demand and equity dilution. The cash dividends shall not less than 10% of the total dividends in principle. However, the type and ratio of this surplus distribution shall depends on the actual profit and capital status of the year, and shall be approved by the resolution of the Shareholders' meeting.

### 1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

#### 2) Special reserve

In accordance with Ruling No. 1010012865 issued by the FSC on April 6, 2012, a portion of current-period earnings and undistributed prior-period earnings shall be reclassified as special earnings reserve during earnings distribution. The amount to be reclassified should equal the current-period total net reduction of other shareholders' equity. Similarly, a portion of undistributed prior-period earnings shall be reclassified as special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods. The amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions. As of December 31 2021 and 2020, the balance of special earnings reserve were 280,437 thousand and 223,776 thousand.

# 3) Earnings Distribution

Earnings distribution for 2020 and 2021 was decided by the resolution adopted, at the general meeting of shareholders held on August 26 2021 and June 18, 2020, respectively. The relevant dividend distributions to shareholders were as follow:

	2020		2019		
		dend per Share	Amount (thousand)	Dividend per Share	Amount (thousand)
Dividends distributed to common shareholders:					
Cash	\$	12.00	515,262	12.20	519,421
Shares		1.83	78,615	-	
			\$593,877		519,421

On March 23, 2022, the Company resolved to appropriate the 2021 earnings to its shareholders with the cash dividends amounting to \$11.30 dollar per share.

# (iv) Other equity (net of tax)

### (r) Share-based payment

The Board of Directors' meeting on June 18, 2020, the Company decided to award \$424 thousand new shares of restricted stock to those full-time employees whose performance assessment was excellent. The restricted stock which has been registered and approved by the Securities and Futures Bureau of the Financial Supervisory Commission, R.O.C.. On September 17, 2020, the Board of Directors issued \$363 thousand stock. The capital increase date was on October 15, 2020.

Those employees with the restricted stock awards are entitled to obtain shares for free with the condition that these employees continue to provide service to the Company for at least 1 years (from the grant date). 50% of the restricted stock is vested in year 1 after the grant date, 25% is vested in year 2 after the grant date, 15% is vested in year 3 after the grant date, and the remaining 10% is vested in year 4 after the grant date.

The restricted stock is kept by a trust, which is appointed by the Company, before it is vested. These shares shall not be sold, pledged, transferred, gifted, or disposed of by any other means to third parties during the custody period, except for inheritance. The voting rights of these shareholders are executed by the custodian, and the custodian will act based on law and regulations. The rights of shares are the same as issued ordinary share, except for the above restrictions. If these employees who obtain the restricted stock awards violate Regulation Governing Issuance of Restricted Stock Awards in 2016 and 2020, employment contract, confidential contract, trust contract, Ethical Corporate Management Best Practice Principles, Codes of ethical Conduct, the Rules of Information Security, Work Rules, and so on, the Company will repurchase all the unvested shares without charge, and cancel the shares therafter.

As of December 31, 2021 and 2020, the balances of unearned compensation were \$16,235 thousand and \$56,193 thousand and the expenses sprang from the restricted stock awards were \$42,347 thousand and \$10,093 thousand, respectively.

2021

Details of the restricted stock of the Company are as follows:

	 2021	2020	
Outstanding at 1 January	\$ 363	-	
Granted during the year	-		363
Vested during the year	(180)	-	
Forfeited during the year	 (2)	-	
Outstanding at December 31	\$ 181		363

### (s) Earnings per share

The calculation of basic earnings per share and diluted earnings per share for the year 2021 and 2020 are as follows:

020
627,399
50,437
12.44
020
627,399
50,437
306
8
50,751
12.36

On August 26, 2021, the Board of Directors decided to issue shares dividends, with January 10, 2022, as the capital increase date. Since the capital increase date was between the reporting date and the date of the financial statements authorized for issue, the amount affected by the shares dividends should be retrospectively adjusted in accordance with IAS 33. The above-mentioned earnings per share have been adjusted retrospectively. The Company's basic earnings per share before retrospective adjustment for the years ended December 31, 2021 and 2020 were \$14.37 dollar and \$14.74 dollar, respectively; diluted earnings per share were \$14.17 dollar and \$14.63 dollar, respectively.

### (t) Revenue from contracts with customers

# (i) Disaggregation of revenue

	 2021	
Primary geographical markets:	 	
Taiwan	\$ 1,618,270	1,487,428
Major products/services lines:	 	
Revenue of internet service	\$ 1,252,038	1,158,455
Platform commission income	 366,232	328,973
	\$ 1,618,270	1,487,428

For the years ended December 31 2021 and 2020, revenue from e-commerce were \$1,532,910 thousand and \$1,384,433 thousand, which were 95% and 93% of total revenue respectively.

#### (ii) Contract balances

	Dec	cember 31, 2021	December 31, 2020	January 1, 2018
Trade receivable	\$	106,637	95,900	107,306
Less: allowance for impairment		(20,998)	(24,598)	(24,598)
	\$	85,639	71,302	82,708
Contract liability-internet service	\$	257,414	227,739	196,687
	\$	257,414	227,739	196,687

The amount of revenue recognized for the years ended December 31 2021 and 2020, that was included in the contract liability balance at the beginning of the period were \$227,739 thousand and \$196,687 thousand, respectively.

#### (u) Employee compensation and directors' and supervisors' remuneration

In accordance with the Articles of Incorporation, where the Company has earnings in a giving year, the Company shall allocate 1% or above of earnings as staff remunerations, 3% or below as Directors and Supervisors remunerations. However, if there is still accumulated loss of the Company, the Company shall reserve the compensation amount in advance.

The persons who are entitled to receive cash or shares as staff remuneration stipulated in the preceding paragraph including the employees of parents or subsidiaries of the Company meeting certain specific requirements.

For the years ended December 31 2021 and 2020, the Company estimated its employee remuneration and directors' and supervisors' remuneration amounting as following:

	 2021	2020
Employee compensation	\$ 48,670	54,500
Directors' and supervisors' remuneration	 7,020	7,560
	\$ 55,690	62,060

The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of remuneration to employees, directors and supervisors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2021 and 2020. The employee compensation which assign with share capital, the estimated amounts are calculated base on the day before decision to assign by board of directions.

The amounts, as stated in the financial statements, are identical to those of the actual distributions for 2021 and 2020. Related information would be available at the Market Observation Post System website.

Total	\$	164,106	37,774	14,417	111,915	164,106		

### 2) Valuation techniques for financial instruments measured at fair value

#### a) Non-derivative financial instruments

If a financial instrument has a quoted price in an active market, the quoted price is used as fair value. The quoted price of a financial instrument obtained from major exchanges and over-the counter markets are the basis used to determine the fair value of a listed company's stock and the quoted prices in an active market.

In addition, the fair value of a private equity instrument is measured by its market value, taking its non-active-market liquidity discount into consideration by adjusting its market value using its put option. The main assumption is that when an investor hold such a restricted equity instrument, the investor can buy a put option, with the strike price equivalent to the market value of such restricted equity instrument, to ensure that the investor can still sell its instrument at current market price after termination of restricted trading period. Therefore, the value of its put option, which is measured by using the Black-Scholes model, stands for the cost that the investor is willing to pay in order to ensure the liquidity of equity security market.

The Company uses the following methods in determining the fair value of its financial instruments without a quoted price in an active market:

Financial assets at FVOCI- non-current are investments in non-listed stock. The fair value is based on the market approach of comparable business. For non-listed stock, the price is based on the estimated earnings before interest, taxes, depreciation, and amortization of investee and the quoted price in an active market of comparable companies. The estimated fair value is adjusted for the lack of liquidity.

#### 3) Reconciliation of Level 3 fair values

	compre	ue through other hensive income
	<b>Unquoted</b>	equity instruments
Opening balance, January 1, 2021	\$	111,915
Total gains and losses recognized		
In profit or loss		-
In other comprehensive income		11,264

For the years ended 2021 and 2020, total gains and losses that were included in "other gains and losses", and "unrealized gains and losses from financial assets at fair value through other comprehensive income" were as follows:

	2021	2020
Total gains and losses recognized	_	_
In other comprehensive income, and presented in "unrealized gains and losses from financial assets at fair value through other comprehensive income"	\$ 11,264	(14,714)

4) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Company's financial instruments that use Level 3 inputs to measure fair value in "financial assets measured at fair value through other comprehensive income – equity security investments".

Most of fair value that use Level 3 have single significant unobservable inputs, only measurements of fair value of equity instruments without an active market had several significant unobservable inputs. Due to independence of significant unobservable inputs in equity instruments without an active market, there were no exist correlation between each other.

Inter-relationship

# Adden Technology Co., Ltd. Notes to the Financial Statements

Quantified information of significant unobservable inputs was as follows:

Item	Valuation technique	Significant unobservable inputs	between significant unobservable inputs and fair value measurement
Financial assets at fair value through other comprehensive income-equity investments without an active market	Comparable company analysis	P/B ratio (2.08~7.58 and 1.40~5.48 on December 31, 2021 and 2020, respectively) Lack-of-Marketability Discount (27.96 and 30.00 on December 31,2021 and 2020)	The estimated fair value would increase (decrease) if:  • The P/B ratio were higher (lower);  • Lack-of-Marketability discount were lower (higher).;
Financial assets at fair value through other comprehensive income-equity investments without an active market	Binomial options pricing model	<ul> <li>Volatility (31.97%~37.11% on December 31, 2021 and 2020)</li> <li>Equity Value (1.73~ 10.64 and 5.84~10.73 on December 31, 2021 anf 2020)</li> </ul>	The estimated fair value would increase (decrease) if:  • The volatility were lower (higher);  • The equity value were higher (lower).
Financial assets at fair value through other comprehensive income-equity investments without an active market	Net asset valuation method	· Net asset valuation	Not applicable

# 5) Fair value measurements in Level 3– sensitivity analysis of reasonably possible alternative assumptions

# (y) Financial risk management

#### (i) Overview

The Company have exposures to the following risks from its financial instruments:

- 1) credit risk
- 2) liquidity risk
- 3) market risk

The following likewise discusses the Company's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying financial statements.

### (ii) Structure of risk management

The Board of Directors has responsibility for the establishment and oversight of the risk management framework. Internal Audit is responsible for identifying and analyzing the risk faced by the Company. The heads of departments set appropriate risk limits and controls, and to monitor risks and adherence to limits. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The supervisors and independent directors oversee how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The supervisors and independent directors are assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the supervisors and independent directors.

#### (iii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

#### 1) Trade and other receivable

The Company's expose of risk are affect by the individual status of each client. The management also considerate the statistics of the client basic data, including default risk of industry and country, these factor might affect credit risk.

The Company has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, when available, and, in some cases, bank references. Purchase limits are established for each customer and represent the maximum open amount without requiring approval; these limits are reviewed quarterly. Customers that fail to meet the Company's benchmark creditworthiness may transact with the Company only on a prepayment basis.

### 2) Investments

The exposure to credit risk for the bank deposits, fixed income investments, and other financial instruments is measured and monitored by the Company's finance department. The Company only deals with banks, other external parties, corporate organizations, government agencies and financial institutions with good credit rating. The Company does not expect any counterparty above fails to meet its obligations hence there is no significant credit risk arising from these counterparties.

# (iv) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it always has sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

#### (v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and equity prices, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

#### 1) Currency risk

The Company is exposed to currency risk on sales and purchases that are denominated in a currency other than the respective functional currencies of the Group's entities, primarily the New Taiwan Dollar (NTD), Hong Kong Dollar (HKD), and Chinese Yuan (CNY). The currencies used in these transactions are the NTD, US Dollar (USD), HKD, and CNY.

## 2) Other market price risk

The financial assets at fair value through other comprehensive income held by the Company are invested in stocks in domestic listed company and stocks in unlisted company. Because those are measured at fair value, the Company exposed to changes in the equity price. To manage market risk, the Company need to choose investment targets carefully and control the positions the Company held.

### (z) Capital management

The Company's objectives for managing capital to safeguard the capacity to continue to operate, to continue to provide a return on shareholders, to maintain the interest of other related parties, and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the dividend payment to the shareholders, reduce the capital for redistribution to shareholders, issue new shares, or sell assets to settle any liabilities.

The Company and other entities in the same industry use the debt-to-equity ratio to manage capital. This ratio is the total net debt divided by the total capital. The net debt from the balance sheet is derived from the total liabilities less cash and cash equivalents. The total capital and equity include share capital, capital surplus, retained earnings, and other equity.

The Company's debt-to-equity ratio at the end of the reporting period as of 2021 and 2019, were as follows:

	De	December 31,	
		2021	2020
Total liabilities	\$	1,234,614	983,389
Less: cash and cash equivalents		654,664	514,741
